,1979-07 *Writing Without Words* Elizabeth Hill Boone,Walter Mignolo,1994 The history of writing or so the standard story goes is an ascending process evolving toward the alphabet and finally culminating in the full writing of recorded speech Writing without Words challenges this orthodoxy and with it widespread notions of literacy and dominant views of art and literature history and geography Asking how knowledge was encoded and preserved in Pre Columbian and early colonial Mesoamerican cultures the authors focus on systems of writing that did not strive to represent speech Their work reveals the complicity of ideology in the history of literacy and offers new insight into the history of writing The contributors who include art historians anthropologists and literary theorists examine the ways in which ancient Mesoamerican and Andean peoples conveyed meaning through hieroglyphic pictorial and coded systems systems inseparable from the ideologies they were developed to serve We see then how these systems changed with the European invasion and how uniquely colonial writing systems came to embody the post conquest American ideologies The authors also explore the role of these early systems in religious discourse and their relation to later colonial writing Bringing the insights from Mesoamerica and the Andes to bear on a fundamental exchange among art history literary theory semiotics and anthropology the volume reveals the power contained in the medium of writing Contributors Elizabeth Hill Boone Tom Cummins Stephen Houston Mark B King Dana Leibsohn Walter D Mignolo John Monaghan John M D Pohl Joanne Rappaport Peter van der Loo **The Cambridge**

Ancient History Averil Cameron,Bryan Ward-Perkins,Michael Whitby,2001-03-29 Volume 14 concludes the new edition of The Cambridge Ancient History Social Perception Jenifer B. Kruger,2025-06-07 While there has been renewed scholarly interest in paratextual features of early Christian manuscripts that interest has rarely extended to the size of manuscripts particularly the format known as the miniature codex Such neglect is surprising given that this miniature format was a notable part of early Christian textual culture emerging as early as the second century and visible well into the seventh century and beyond So established was this format among Christians during this period that C H Roberts once surmised incorrectly that The miniature codex would seem to be a Christian invention Many of these tiny books were elegant well crafted and could contain a surprising number of pages Currently we have over 60 such codices which contain a wide range of Christian literature including New Testament books patristic and non canonical writings e g the Didache Acts of Paul and apocryphal gospels and even liturgical ritual texts This volume is the first full length monograph on the phenomenon of the miniature codex offering a framework for distinguishing miniature codices from other tiny texts e g amulets exploring their practical and iconic functions and perhaps most importantly assembling a detailed catalogue of all known Christian and Greek miniature codices This distinctive book format provides an essential window into the textual literary and visual culture of early Christianity shedding fresh light on how and why Christians were considered people of the book
