Comparison Of Hansel And Gretel And Cinderella:

The Ring Makes All the Difference Glenn T. Stanton, 2011-09-01 Why not cohabit? Many believe nothing is better for their future marriage than a trial period cohabitation. It's the fastest growing family type in the U.S. So how's that working out? Are people truly happier? Author Glenn Stanton offers a compelling factual case that nearly every area of health and happiness is increased by marriage and decreased by cohabitation. With credible data and compassion, Stanton explores the reasons why the cohabitation trend is growing, outlines its negative outcomes for men, women, and children, and makes a case for why marriage is still the best arrangement for the flourishing of couples and society. This resource is ideal for those who are cohabitating or considering it, as well as pastors and counselors who need to be able to engage this issue.

Comparative Study of Northeastern Folklore and Modern Literary Works Ajeya Jha, 2020-09-03 Northeast India is a region literally derived from myths and folklore with tall mountains and massive rivers; it is a storehouse of natural beauty. It is a veritable hub of bio-cultural diversity. Faunal and floral diversity is richest in as bio-diverse as a country like India. More than a hundred languages are spoken in this small geographical region, giving rise to immense possibilities for imagination and diverse thought processes. This work explores the folklores from Northeast India, echoing strong thematic resemblance with modern literary works including those by authors as valued as Dostoyevsky, Tolstoy, Shakespeare, D.H. Lawrence, and so on. It does come as a happy surprise that an assortment of people living in the economically backward region and perhaps the last one to be touched by modernism have literary traditions that match some of the best known literary works in their philosophical depth and scope. Hope this work generates greater interest in this region and a lot more people will explore it to comprehend its cultural and literary richness. *Children's Literature* Barbara Stoodt, 1996 **Tales and Translation**

Evolution Alex Mesoudi, 2011-07-30 Charles Darwin changed the course of scientific thinking by showing how evolution accounts for the stunning diversity and biological complexity of life on earth. Recently there has also been increased interest in the social sciences in how Darwinian theory can explain human culture. Covering a wide range of topics including fads, public policy, the spread of religion, and herd behavior in markets, Alex Mesoudi shows that human culture is itself an evolutionary process that exhibits the key Darwinian mechanisms of variation, competition, and inheritance. This cross-disciplinary volume focuses on the ways cultural phenomena can be studied scientifically, from theoretical modeling to lab experiments, archaeological fieldwork to ethnographic studies, and shows how apparently disparate methods can complement one another to the mutual benefit of the various social science disciplines. Along the way, the book reveals how new insights arise from looking at culture from an evolutionary angle. *Cultural Evolution* provides a thought-provoking argument that Darwinian evolutionary theory can both unify different branches of inquiry and enhance understanding of human behavior.

Designing Modern America Christopher Innes, 2008-10-01 From the 1920s through the 1950s, two individuals, Joseph Urban and Norman Bel Geddes, did more by far to create the image of America and make it synonymous with modernity than any of their contemporaries. Urban and Bel Geddes were leading Broadway stage designers and directors who turned their prodigious talents to other projects, becoming mavericks first in industrial design and then in commercial design, fashion, architecture, and more. The two men gave shape to the most quintessential symbols of the modern American lifestyle, including movies, cars, department stores, and nightclubs, along with private homes, kitchens, stoves, fridges, magazines, and numerous household furnishings. Illustrated with more than 130 photographs of their influential designs, this book tells the engrossing story of Urban and Bel Geddes. Christopher Innes shows how these two men, with a background in theater, lent dramatic flair to everything they designed and how this theatricality gave the distinctive modernity they created such wide appeal. If the American lifestyle has been much imitated across the globe over the past fifty years, says Innes, it is due in large measure to the designs of Urban and Bel Geddes. Together, they were responsible for creating what has been called the Golden Age of American culture.
