The intonation of expectations Jan Fliessbach, 2023-06-08 This book provides a new perspective on prosodically marked declaratives wh exclamatives and discourse particles in the Madrid variety of Spanish It argues that some marked forms differ from unmarked forms in that they encode modal evaluations of the at issue meaning Two epistemic evaluations that can be shown to be encoded by intonation in Spanish are obviousness and mirativity which present the at issue meaning as expected and unexpected respectively An empirical investigation via a production experiment finds that they are associated with distinct intonational features under constant focus scope with stances of disagreement showing an impact on obvious declaratives Wh exclamatives are found not to differ significantly in intonational marking from neutral declaratives showing that they need not be miratives Moreover we find that intonational marking on different discourse particles in natural dialogue correlates with their meaning contribution without being fully determined by it In part these findings quantitatively confirm previous qualitative findings on the meaning of intonational configurations in Madrid Spanish But they also add new insights on the role intonation plays in the negotiation of commitments and expectations between interlocutors **CUET PG**

Five hundred years later a conference held in Singapore brought together a large group of scholars from widely different national academic and disciplinary contexts to analyse and discuss the intricate consequences of Portuguese interactions in Asia over the longue duree The result of these discussions is a stimulating set of case studies that as a rule combine original archival and or field research with innovative historiographical perspectives Luso Asian communities real and imagined and Luso Asian heritage material and symbolic are studied with depth and insight The range of thematic chronological and geographic areas covered in these proceeding is truly remarkable showing not only the extraordinary relevance of revisiting Luso Asian interactions in the longer term but also the surprising dynamism within an area of studies which seemed on the verge of exhaustion After all archives from all over the world from Rio de Janeiro to London from Lisbon to Rome and from Goa to Macao might still hold some secrets on the subject of Luso Asian relations when duly explored by resourceful scholars
