*The Human Rights of Older Persons* Bridget Lewis,Kelly Purser,Kirsty Mackie,2020-08-07 This book provides a comprehensive human rights analysis of key areas of law affecting older persons including legal capacity elder abuse accommodation and aged care healthcare employment financial security retirement and estate planning and social and cultural participation The research identifies individual autonomy and participation in decision making as fundamental to a human rights based approach to elder law The book argues that a paradigm shift must occur away from traditional medical and charity based understandings of old age to instead acknowledge older persons as active holders of enforceable rights The book argues that a Convention on the Rights of Older Persons is an essential tool in achieving this but that even without a dedicated treaty there is much to be gained from a human rights based approach Significantly because the issues arising in old age are often the culmination of experiences occurring throughout the life course a human rights based approach to elder law must begin with a commitment to human rights for people of all ages
