## **Better Governance And Public Policy Capacity Building For Democratic Renewal In Africa:**

*Better Governance and Public Policy* Dele Olowu, Soumana Sako, 2002 Written by prominent scholars and practitioners of African development policy Describes recent governance changes in Africa Analyzes consequences of these changes for institutional reform Highlights challenges of capacity building for economic liberalization and democratization This is an ideal volume for both students and scholars of African development as well as anyone interested in the current issues of African governance Published in association with the African Capacity Building Foundation this book answers such questions as What is the relationship between governance and institutional reforms What is the impact of these reforms on public policy processes And what is the link between economic governance and policy research Public Policy and Research in Africa

E. Remi Aiyede, Beatrice Muganda, 2022-10-18 This open access book responds to the need for a specifically African focus on public policy It outlines the fundamental principles of public policy research and engages with major issues in the study of public policy from an African perspective covering essential topics such as the location and centrality of social sciences in relation to public policy leadership methodology institutions governance and gender This book is essential for understanding the various aspects and dimensions of policy making in Africa that underscore quality research and are at the core of excellence in teaching and learning **Governance Reform in Africa** Jerome Bachelard, 2013-07-24 Poor

governance is increasingly recognized as the greatest impediment to economic development in Sub Saharan Africa Currently some impressive governance reforms are underway in many countries This includes cases such as Nigeria formerly the most corrupt country in the world according to Transparency International Yet other countries such as Chad are still in reform deadlock To account for these differences this book examines governance reform in Sub Saharan Africa based on an analysis of international and domestic pressures and counter pressures It develops a four phase model explaining why governance reforms advance in some instances whilst in others governance reforms stagnate or even relapse No study has sought to systematically examine the political forces both international and domestic behind the successful conduct of governance reform in Sub Saharan Africa Yet coordination collaboration and mutual support between international and domestic actors is critical to push individual governments onto the path of reform This book shows that while international and domestic pro reform pressures are important an analysis of anti reform pressures is also necessary to explain incomplete or failed reform The main theoretical arguments are structured around four hypotheses The hypotheses are theoretically generated and tested over four case studies Madagascar Kenya Nigeria and Chad On this basis the good governance socialization process is inductively developed in the concluding chapter This model illustrates how governance practices can evolve positively and negatively in all countries of Sub Saharan Africa based on the nature and relative strength of international and domestic pressures and counter pressures Routledge Handbook of Public Policy in the Global South Gedion Onyango, Ishtiaq

Jamil, 2025-06-30 This important new handbook provides a comprehensive assessment of contemporary public policy and

governance in the Global South It offers incisive comparative analyses and presents policy specific case studies from across Asia Latin America Middle East and Africa The aim is to inform future governance research policy and practice in these regions This book is timely as it responds to how governments in the Global South are dealing with recent complex series of challenges and crises of the 21st Century These range from the pressures of a global pandemic to the impacts of climate change democratic backsliding deteriorating public services and the realignments in the international political economy following the rise of China In doing so it reflects on the political transformations global convergences and underlying regional as well as national trajectories that have taken place recently focusing on among others Democratic governance and institutional trust Public service delivery motivation and governance outcomes Policy crises disaster management and climate change Policy successes and failures Policy innovations digitalisation and policy research in the Global South Different authors bring together varied and specialised perspectives and experiences which are important for researchers practitioners and policymakers wishing to understand emerging governance models innovations and challenges within the Global South

**Public Administration Training in Africa** Peter Fuseini Haruna, Shikha Vyas-Doorgapersad, 2014-12-19 There is a growing global interest in Africa and how to improve the quality of life of its people and for good reason The world can no longer afford to ignore the democratic changes that have occurred across the continent over the past two decades changes with tremendous implications for professional education and training for the tasks of nation building Public Administration Training in Africa Competencies in Development Management presents research findings related to talent and competency development within the framework of public service institutional capacity building The book focuses on public administration questions as they relate to training development and competency building that will strengthen public managers capacity to implement governance policies and work toward improving development management It draws on unique national experiences to provide research and scholarship that advance the dialogue on training and development relevant to African culture and history while at the same time contributing to enhance the field of practice In addition to offering detailed descriptions and analyses of unique national experiences the book also integrates transnational issues of training and development and ties the discussions back to the body of knowledge and scholarship defining the field and discipline of public administration As scholars and experts in their own right the authors make a reasoned case for rethinking and re examining training and development in Africa in light of the emerging governance approach to public administration The comprehensive empirical descriptions and analyses of education and training contexts and cultures written by some of the best minds in the subfield give you the latest research findings and distill relevant experiential and theoretical knowledge tools and skills based on case analyses including carrying out development activity in different cross cultural contexts

International Development Governance Ahmed Shafiqul Huque, Habib Zafarullah, 2017-09-25 The establishment of good governance is a major challenge for the developing world along with the need to sustain the progress resulting from

developmental efforts Although there are numerous studies on the development and governance of emerging nations few volumes make a serious effort to bring together these two critical concepts International Development Governance combines the two concepts development and governance by examining the issues and problems faced by nations in their attempts to establish sustainable governance This textbook also initiates discussions on the concept of development governance in an international context The book fills the gap in existing literature by drawing upon the experience and expertise of scholars from a broad spectrum of knowledge Their views explain the issues and problems with reference to a number of tools that could establish development governance and sustain it The text offers in depth examinations of developmental sectors resulting in a textbook that will inspire future public officials policy makers and consultants to contribute to the betterment of life for citizens of developing countries

*Democratic Evaluation and Democracy* Donna Podems, 2017-02-01 Democratic evaluation brings a way of thinking about evaluation's role in society and in particular its role in strengthening social justice Yet the reality of applying it and what happens when it is applied particularly outside the West is unclear Set in South Africa a newly formed democracy in Southern Africa the book affords an in depth journey that immerses a reader into the realities of evaluation and its relation to democracy The book starts with the broader introductory chapters that set the scene for more detailed ones which bring thorough insights into national government local government and civil societies experience of evaluation democratic evaluation and their understanding of how it contributes to strengthening democracy or not A teaching case the book concludes by providing guiding questions that encourage reflection discussion and learning that ultimately aims to inform practice and theory

**State Politics and Public Policy in Eastern Africa** Gedion

Onyango, 2023-03-22 This book analyses major themes in twenty first century east African politics Predominantly authored by researchers and academics from the region it examines recent political developments public policy and governance across east and southern African countries The book advocates for a regionally focused comparative approach across Africa arguing that it provides a greater level of analysis than a complete continental study Adopting a multidisciplinary approach it covers numerous topics relating to politics public policy state and nation building in Africa Filling an important void in current literature the book will appeal to academics practitioners politicians and students of politics public policy and governance Chapter 16 and 20 are available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)

*Local Governance in Africa* Dele Olowu, James Stevenson Wunsch, 2004 An exploration of why some decentralization reforms have led to viable systems of local governance in Africa while others have failed It outlines the key issues involved provides historical context and identifies the factors that have encouraged or discouraged success

Governance and the postcolony David Everatt, 2019-08-01 Civil society NGOs governments and multilateral institutions all repeatedly call for improved or good governance yet they seem to speak past one another Governance is in danger of losing all meaning precisely because it means many things to different people in varied locations This is especially true in sub

Saharan Africa Here the postcolony takes many forms reflecting the imperial project with painful accuracy Offering a set of multidisciplinary analyses of governance in different sectors crisis management water food security universities in different locales across sub Saharan Africa and from different theoretical approaches network to adversarial network governance this volume makes a useful addition to the growing debates on how to govern It steers away from offering a correct definition of governance or from promoting a particular position on postcoloniality It gives no neat conclusion but invites readers to draw their own conclusions based on these differing approaches to and analyses of governance in the postcolony As a robust critical assessment of power and accountability in the sub Saharan context *Governance and the Postcolony Views from Africa* brings together topical case studies that will be a valuable resource for those working in the field of African international relations public policy public management and administration

*Toward Better Governance in China* Baogang Guo, Dennis V. Hickey, 2009-11-12 *Toward Better Governance in China* takes a fresh look at the latest efforts made by Chinese leaders to promote governance based reform It asserts that the improvement of governance has now become one of the breakthrough points of the much anticipated political reform Although the Chinese government continues to play down expectations about political reform many small scale reform experiments have been quietly undertaken by Chinese leaders at various levels in recent years including the new round of administrative reform centered on the creation of super ministries the enlargement of inner party democracy within the Chinese Communist Party CCP the strengthening of local legislative bodies and judicial reform designed to promote judicial independence and rule of law This strategy calls for strengthening governing capacity and changing government functions One of the advantages in placing the improvement of governance first is that it is less risky than embarking upon a full scaled electoral reform Electoral democracy is undoubtedly an important element in a functional democracy But equally important is the effectiveness transparency accountability and openness of the governing process Better governance implies greater transparency open deliberation and participation and less adversarial political confrontation and conflict If constructed properly China may become the sort of democratic administration or administrative democracy that Robert Dahl discussed in 1947 Clearly political reform of this kind does not follow the conventional wisdom of a democratic transition which places heavy emphasis on electoral reform or the precedence of the electoral reform to the government reform This book is intended to shed some new light on the ongoing debate about the direction of China s political development

*African Parliaments* M. Salih, 2005-12-10 This book offers in depth analysis of parliamentary development set in a historical context informed by Africa s post 1990s democratic resurgence In particular it illustrates how African parliaments are caught between the twin processes of being part of the machinery of government while exercising the function of holding government accountable

**Public Administration in Africa** Shikha Vyas-Doorgapersad, Lukamba-Muhiya. Tshombe, Ernest Peprah Ababio, 2016-04-19 With contributions from leading regional scholars *Public Administration in Africa Performance and Challenges* examines the complexities of the art of governance

from the unique African perspective The editors bring together a cohesive study of the major issues and regions by taking an analytic approach with the strong problem solution application Regions addressed range from South Africa Congo Uganda Nigeria Ghana Mauritius and Botswana Themes include colonialism reform poverty economy decentralization financing media political structures and more Beginning with an analysis of the relationship of policy design and its destination service delivery the book discusses the historical development of a state that has gone through upheavals in government and explores a decayed political economy that ultimately results in a need for sweeping measures The text examines the issues emerging policy makers in Africa must tackle namely poverty and the denial or lack of resources to keep a dignified human life It highlights how the media can be a catalyst for good governance and provides analytical aspects of implementing good governance reforms The book concludes with an examination of the concepts of decentralization and devolution in measuring service delivery performance and an exploration of Africa s economic success story It also details the African Peer Review Mechanisms in selected African countries and provides a holistic analysis of local government functioning in Africa These features and more make it an interdisciplinary reference for diverse social economic political and administrative issues

*Aid that Works* James Manor,2007 Research in recent years on aid effectiveness shows that significant obstacles in fragile states insecurity poor governance and weak implementation capacity usually prevent aid from achieving the desired results in these environments This study investigates the attributes and effectiveness of donor supported programmes and projects that worked well under difficult conditions in fragile states Presented in this study are nine development initiatives in six less developed countries Afghanistan Cambodia Mozambique Sierra Leone Timor Leste and Uganda The cases show that development initiatives which engage local communities and local level governments are often able to have significant impact However for more substantial improvements to take places localized gains need to be scaled up either horizontally other localities or vertically to higher levels Given the advantages of working at the local level and the difficulty of working through mainstream bureaucratic agencies at higher levels in these countries donors often prefer to create parallel agencies to reach out to larger numbers of beneficiaries However this may in the long run weaken the legitimacy of mainstream government institutions and donor agencies may therefore choose to work as closely as possible with government officials from the beginning to build trust and demonstrating that new initiatives are non threatening and help prepare the eventual mainstreaming of parallel agencies

**Public Budgeting in African Nations** Peter Fuseini Haruna,Shikha Vyas-Doorgapersad,2016-04-14 Public Budgeting in African Nations aims to provide usable budgeting and fiscal policy management information to development practitioners interested in improving the performance of governments in the context of good governance It shares regional and cross cultural experiences with international audiences and gives reflective attention to comparative budgeting and fiscal policy management With a promising economic and fiscal forecast such information is timely for international development practitioners and for scholars and researchers interested in

advancing development management This book adopts an interdisciplinary pragmatic approach to analyze and present research findings on public budgeting as a sustainable development tool The central argument is that development practice will benefit from a bottom up decentralized approach to budgeting and fiscal policy management involving national sub national and civil society institutions From this perspective a balanced budget should draw from and reflect values and priorities across the full spectrum of social and political life      Public Policy in Ghana Michael Kpessa-Whyte, James Dzisah, 2023-12-15 This book provides analytical conceptual and practical insights into how public policy processes and outcomes are conceptualized and framed Drawing on Ghanaian experiences but with extensive illustrations from other African countries it showcases issues of commonality and diversity in public policy with analytical insights and real life policy concerns that specifically address how citizens engage with the state and how they think and function as social actors within the socio cultural settings of Africa The book brings public policy to life as a practical and problem solving discipline with examples of how policy actors such as the legislature governance architects the media and the judiciary become arenas for contest Linking public policy to development paradigms governance and responsible citizenship it is important reading for students and scholars of public policy governance and politics in Africa as well as practitioners      *Handbook of Globalization, Governance, and Public Administration* Ali Farazmand, Jack Pinkowski, 2006-07-25 Globalization transcends borders and cultures as it develops both from the natural flow of information and communication technologies and as a directed and driven quest for global hegemony by self serving corporations and world political heavyweights It bears a multifaceted web of influence that manifests in inequalities in growth prosperity and      **AIDS and Governance** Alan Whiteside, 2016-03-23 The political impact of HIV AIDS varies greatly and is difficult to map States depend on how governments choose to manage the political implications of HIV and AIDS both those stemming from the erosions of its own capacity as well as those that originate from their changing relationship on a national and international level Across the developing world HIV AIDS is slowly killing adults in their most productive years hollowing out state structures deepening poverty and raising profound questions that touch on the organization of all aspects of social economic and political life With the epidemic showing scant signs of slowing down this innovative volume assesses how HIV AIDS affects governance and conversely how governance affects the course of the epidemic In particular the volume      *Contemporary Issues in Africa's Development* Ehimika A. Ifidon, Richard A. Olaniyan, 2018-04-18 This volume reports on the state of crisis in Africa in the early twenty first century Africa on the eve of the independence revolution was the continent of hope and high expectations By the third decade of independence optimism had been replaced by dismay African states had been beset by ethnic political squabbles military rule civil wars Islamic and insurgent movements extreme poverty and disease With the ascent of redemocratization in the 1990s and of new pan Africanism derived from the formation of the African Union Africa appeared set to claim its vaunted destiny This book asks with hindsight to the first decade of the twenty first century how real was the

renaissance in African life If the dismal African condition is a phase in the historical development of Africa this volume does not see any golden age in the past to which Africa aspires to return There is clearly a continuation and persistence of crisis with an absence of good governance personalisation of state power widespread disease and policy failure in education economy and infrastructural development Although endowed with abundant human and natural resources Africa remains the least developed and most indebted continent Whither then the African Renaissance The methodologies that underpin the contributions in this book are as diverse as the specialisations of the contributors The collection questions ideologically protected assumptions and presumptions presenting Africa as it is because it is only by knowing where Africa truly stands that a proper direction can be charted for it The Policy Paradox in Africa Elias Ayuk, Mohamed Ali Marouani, 2007 It provided technical and financial support to economic research centres in sub Sahara Africa SSA so that they can undertake policy relevant research with the goal of influencing economic policy making In January 2005 the Secretariat organized an international conference in Dakar Senegal during which participants from key economic think tanks presented their experiences in the policy development process in Africa Of particular interest was the role of economic research and economic researchers in policy making The authors examine the extent to which economic policies that are formulated in the sub continent draw from research based on local realities and undertaken by local researchers and research networks in Africa
