Breed Differences in Dog Behavior Renee Robinette Ha, Tracy L.

Brad, James C. Ha, 2024-04-10 Humans have bred dogs for physical and behavioral characteristics for millennia. These efforts can have unintended side effects, however, which may be either advantageous or cause issues such as a predisposition to certain medical complaints or controversially behavioural issues. The scientific study of domestic dogs is still in its infancy, but public demand for this information is at a record high as more and more pet owners seek to understand their canine family members. Focusing on the behavioral differences and tendencies that have arisen in different breed lines, this book explores, summarizes, and explains the scientific evidence on what breed can tell us about behaviour and, crucially, what it cannot. Providing a comprehensive and approachable view of the science behind breed-specific behaviors, this book gives dog enthusiasts from all professional and personal backgrounds a better understanding of why dogs do what they do and how we can improve our relationships with our canine companions. Covering genetics, phylogeny of canids, temperament, aggression, social behavior, and the history of dog breeding, it is an important read for researchers, students, veterinary practitioners, and animal behaviourists, as well as shelter staff, dog trainers, or anyone looking for a greater understanding of dog breed differences.

Tears of the Wolf Elisabeth Wheatley, 2025-02-21 After the murder of her child Brynn, the Istovari wants nothing more than to escape the shackles of her birthright. As a sorceress and the last of a once-great bloodline, many still seek to use her for their own schemes. Brynn will do anything for the chance at freedom, even if it means marrying an upstart warrior from the far north. Cenric needs a wife, but not just any wife: a sorceress. Having recently reclaimed his inheritance after a youth spent across the sea, a sorceress will bring security and legitimacy in his estranged homeland. A marriage gives both Brynn and Cenric what they want for now. In the far northern reaches lies a land ruled by pride and strict codes of honor. As Brynn and Cenric struggle to navigate the aftermath of their hasty union, they soon realize that rival factions within the kingdom are on the verge of war. Once again, alone, they will be destroyed by the coming storm. Together, they might stand a chance.

Natural Dog Training Kevin Behan, 2009-01-14 Natural Dog Training is about how dogs see the world and what this means in regards to training. The first part of this book presents a new theory for the social behavior of canines, featuring the drive to hunt, not the pack instincts, as seminal to canine behavior. The second part reinterprets how dogs actually learn. The third section presents exercises and handling techniques to put this theory into practice with a puppy. The final section sets forth a training program with a special emphasis on coming when called.
