Unsettling Colonialism in the Canadian Criminal Justice System Vicki Chartrand, Josephine Savarese, 2023-12-08 Canada's criminal justice system reinforces dominant relations of power and further entrenches the country in its colonial past Through the mechanisms of surveillance segregation and containment the criminal justice system ensures that Indigenous peoples remain in a state of economic deprivation social isolation and political subjection By examining the ways in which the Canadian justice system continues to sanction overtly discriminatory and racist practices the authors in this collection demonstrate clearly how historical patterns of privilege and domination are extended and reinforced

Sharing Breath Sheila Batacharya, Yuk-Lin Renita Wong, 2018-10-31 Treating bodies as more than discursive in social research can feel out of place in academia As a result embodiment studies remain on the outside of academic knowledge construction and critical scholarship However embodiment scholars suggest that investigations into the profound division created by privileging the mind intellect over the body spirit are integral to the project of decolonization The field of embodiment theorizes bodies as knowledgeable in ways that include but are not solely cognitive The contributors to this collection suggest developing embodied ways of teaching learning and knowing through embodied experiences such as yoga mindfulness illness and trauma Although the contributors challenge Western educational frameworks from within and beyond academic settings they also acknowledge and draw attention to the incommensurability between decolonization and aspects of social justice projects in education By addressing this tension ethically and deliberately the contributors engage thoughtfully with decolonization and make a substantial and sometimes unsettling contribution to critical studies in education

Dis/Consent KelleyAnne Malinen, 2019-04-29T00:00:00Z Sexual violence is prevalent in our society We know this directly because of the courage survivors have shown in facing their perpetrators in courts online and in the public eye But society is hesitant incapable or unwilling to hold offenders to account they keep their jobs or get promoted to powerful positions and survivors frequently end up being on trial themselves Furthermore mainstream discourse and thinking about

sexual violence and consent are limited to problematic op eds oversimplified viral videos or tweets These will not end sexual violence The contributors to Dis Consent argue that the conversations happening today around consent and sexual violence ignore and erase the multiple forms of oppression that are part and parcel of sexual violence They highlight the relationships between our social structures social institutions and individual experiences of sexual consent and sexual violence And because sexism racism misogyny homophobia transphobia and ableism are deeply intertwined with sexual violence it will not be undone without systemic anti oppressive decolonizing change Refusing to reduce intersectionality to a hasty footnote this volume examines the construction of sexual violence and consent at diverse intersections of identity and includes a diversity of perspectives and positionalities rarely found in conversations about sexual violence and sexual consent **Global**

the future of Indigenous education in Canada In *Reclaiming Anishinaabe Law* Leo Baskatawang traces the history of the neglected treaty relationship between the Crown and the Anishinaabe Nation in Treaty 3 and the Canadian government's egregious failings to administer effective education policy for Indigenous youth failures epitomized by but not limited to the horrors of the residential school system Rooted in the belief that Indigenous education should be governed and administered by Indigenous peoples Baskatawang envisions a hopeful future for Indigenous nations where their traditional laws are formally recognized and affirmed by the governments of Canada Baskatawang thereby details the efforts being made in Treaty 3 territory to revitalize and codify the Anishinaabe education law *kinamaadiwin inaakonigewin* *Kinamaadiwin inaakonigewin* considers education wholistically such that it describes ways of knowing being doing relating and connecting to the land that are grounded in tradition while also positioning its learners for success in life both on and off the reserve As the backbone of an Indigenous led education system *kinamaadiwin inaakonigewin* enacts Anishinaabe self determination and has the potential to bring about cultural resurgence language revitalization and a new era of Crown Indigenous relations in Canada *Reclaiming Anishinaabe Law* challenges policy makers to push beyond apologies and performative politics and to engage in meaningful reconciliation practices by recognizing and affirming the laws that the Anishinaabeg have always used to govern themselves

Canada at a Crossroads Jeffrey S. Denis, 2020-03-13 *Canada at a Crossroads* investigates the boundaries and bridges between Indigenous and settler communities and the persistence of anti Indigenous racism in twenty first century small town Canada *Power and Resistance* Wayne Antony, Jessica Antony, Les

Samuelson, 2020-05-06T00:00:00Z How do we make sense of the social problems that continue to plague Canadian society Our understanding of issues such as poverty racism violence homophobia crime and pollution stems from our view of how society is structured From the dominant neoliberal perspective social problems arise from individuals making poor choices From a critical perspective however these social troubles are caused by structural social inequalities Disparities in economic social and political power that is relations of power based on class race gender and sexual orientation are the central structural element of capitalist patriarchal colonialist societies The contributors to *Power and Resistance* use this critical perspective to explore Canadian social issues such as poverty colonialism homophobia violence against women climate change and so on This sixth edition adds chapters on the corporatization of higher education the lethal impacts of colonialism democracy the social determinants of health drug policy and sexual violence on campus

The Colonial Problem Lisa Monchalin, 2016-03-08 Indigenous peoples are vastly overrepresented in the Canadian criminal justice system The Canadian government has framed this disproportionate victimization and criminalization as being an Indian problem In *The Colonial Problem* Lisa Monchalin challenges the myth of the Indian problem and encourages readers to view the crimes and injustices affecting Indigenous peoples from a more culturally aware position She analyzes the consequences of assimilation policies dishonoured treaty agreements manipulative legislation and systematic racism arguing that the overrepresentation of

Indigenous peoples in the Canadian criminal justice system is not an Indian problem but a colonial one *Power and Resistance*, 7th ed. Jessica Antony, Wayne Antony, 2022-06-30T00:00:00Z *Power and Resistance* debunks the dominant neoliberal hyper individualist approach to society's problems that sees poverty as a result of laziness environmental crises as a result of market demands for products that pollute and Indigenous Peoples' struggles as a result of not assimilating. We argue that it is social inequality and oppression that are the underlying causes of social problems. In a society like ours powerful groups make choices that benefit them and force those choices onto others creating life problems for others and society as a whole. The powerful also have influence over what is and is not called a social problem. Solving social problems requires changing the structures of inequality and oppression. For example industrial corporate agriculture has created huge profits for a few gigantic food corporations but left much of the world hungry. But farmers and their allies are pushing back through agroecology an agriculture based on local small scale ecologically sustainable farming that brings eaters and growers closer to one another. The seventh edition of *Power and Resistance* includes new chapters on anti Black racism in schools Indigenous people and mental health food security and sovereignty and work in the gig economy **Sleeping Giant Awakens** David B. MacDonald, 2019-01-01 Confronting the truths of Canada's Indian residential school system has been likened to waking a sleeping giant. In *The Sleeping Giant Awakens* David B MacDonald uses genocide as an analytical tool to better understand Canada's past and present relationships between settlers and Indigenous peoples. Starting with a discussion of how genocide is defined in domestic and international law the book applies the concept to the forced transfer of Indigenous children to residential schools and the Sixties Scoop in which Indigenous children were taken from their communities and placed in foster homes or adopted. Based on archival research extensive interviews with residential school Survivors and officials at the Truth and Reconciliation Commission of Canada among others *The Sleeping Giant Awakens* offers a unique and timely perspective on the prospects for conciliation after genocide exploring the difficulties in moving forward in a context where many settlers know little of the residential schools and ongoing legacies of colonization and need to have a better conception of Indigenous rights. It provides a detailed analysis of how the TRC approached genocide in its deliberations and in its Final Report. Crucially MacDonald engages critics who argue that the term genocide impedes understanding of the IRS system and imperils prospects for conciliation. By contrast this book sees genocide recognition as an important basis for meaningful discussions of how to engage Indigenous settler relations in respectful and proactive ways.
