Beyond Citizenship American Identity After Globalization Beyond Citizenship American Identity After Globalization:

Beyond Citizenship Peter J. Spiro, 2008-02-01 Spiro takes readers on an engaging historical and conceptual exploration of how citizenship law has set and reflected the boundaries of national community and an American national character. Against this broad tableau Spiro shows how territorial presence through birth or residence resolved the peculiar challenges of American identity. But as globalization eclipses the significance of space, citizenship status becomes detached from any sense of actual community on the ground. The global diffusion of American political values and cultural production further erodes the possibility of drawing a meaningful line between the us and them. **American Identity and the Politics of Multiculturalism** Jack Citrin, David O. Sears, 2014-08-11 This book uses national public opinion data and public opinion data from Los Angeles to compare ethnic differences in patriotism and ethnic identity and ethnic differences in support for multicultural norms and group conscious policies. The authors find evidence of strong patriotism among all groups and the classic pattern of assimilation among the new wave of immigrants. *Within and Beyond Citizenship* Roberto G. Gonzales, Nando Sigona, 2017-07-06 *Within and Beyond Citizenship* brings together cutting edge research in sociology and social anthropology on the relationship between legal status, rights and belonging in contemporary societies of immigration to offer a daring new perspective on these questions. It offers new insights into the ways in which political membership is experienced spatially and bureaucratically constructed and actively negotiated and contested in the everyday lives of citizens and non citizens. *Beyond a Border* Peter Kivisto, Thomas Faist, 2010 The most up to date analysis of today's immigration issues. As the authors state in Chapter 1, the movement of people across national borders represents one of the most vivid dramas of social reality in the contemporary world. This comparative text examines contemporary immigration across the globe, focusing on 20 major nations. Key features include comprehensive coverage of topics not covered in other texts: a global portrait of contemporary immigration including a demographic overview of today's cross border movers; critical assessments of the achievements of the field to date; encourages students to rethink traditional views about the distinction between citizen and alien. *The Oxford Handbook of Citizenship* Ayelet Shachar, Rainer Bauböck, Irene Bloemraad, Maarten Peter Vink, 2017 This Handbook sets a new agenda for theoretical and practical explorations of citizenship, analysing the main challenges and prospects informing today's world of increased migration and globalization. It will also explore new forms of membership and democratic participation beyond borders and the rise of European and multilevel citizenship. **Migrations and Mobilities** Seyla Benhabib, Judith Resnik, 2009-03 This work discusses the unprecedented challenges that the movement of peoples across national borders poses for the people involved as well as for the places to which they travel and their countries of origin. **Transcending Racial Barriers** Michael O. Emerson, George A. Yancey, 2011 Despite recent progress against racial inequalities, American society continues to produce attitudes and outcomes that reinforce the racial divide. In

Transcending Racial Barriers Michael Emerson and George Yancey offer a fresh perspective on how to combat racial division They document the historical move from white supremacy to institutional racism then look at modern efforts to overcome the racialized nature of our society The authors argue that both conservative and progressive approaches have failed as they continually fall victim to forces of ethnocentrism and group interest They then explore group interest and possible ways to account for the perspectives of both majority and minority group members They look to multiracial congregations multiracial families the military and sports teams all situations in which group interests have been overcome before In each context they find the development of a core set of values that binds together different racial groups along with the flexibility to express racially based cultural uniqueness that does not conflict with this critical core Transcending Racial Barriers offers what is at once a balanced approach towards dealing with racial alienation and a bold step forward in the debate about the steps necessary to overcome present day racism

The Scramble for Citizens David Cook-Martin, 2013-01-09 It is commonly assumed that there is an enduring link between individuals and their countries of citizenship Plural citizenship is therefore viewed with skepticism if not outright suspicion But the effects of widespread global migration belie common assumptions and the connection between individuals and the countries in which they live cannot always be so easily mapped In *The Scramble for Citizens* David Cook Martin analyzes immigration and nationality laws in Argentina Italy and Spain since the mid 19th century to reveal the contextual dynamics that have shaped the quality of legal and affective bonds between nation states and citizens He shows how the recent erosion of rights and privileges in Argentina has motivated individuals to seek nationality in ancestral homelands thinking two nationalities would be more valuable than one This book details the legal and administrative mechanisms at work describes the patterns of law and practice and explores the implications for how we understand the very meaning of citizenship

Human Rights as Political Imaginary José Julián López, 2018-04-13 In this book López proposes the political imaginary model as a tool to better understand what human rights are in practice and what they might or might not be able to achieve Human rights are conceptualised as assemblages of relatively stable but not unchanging historically situated and socially embedded practices Drawing on an emerging iconoclastic historiography of human rights the author provides a sympathetic yet critical overview of the field of the sociology of human rights The book addresses debates regarding sociology's relationships to human rights the strengths and limits of the notion of practice human rights affinity to postnational citizenship and cosmopolitanism and human rights curious yet fateful entanglement with the law *Human Rights as Political Imaginary* will be of interest to students and scholars across a range of disciplines including sociology politics international relations and criminology

Multilevel Citizenship Willem Maas, 2013-06-07 Citizenship has come to mean legal and political equality within a sovereign nation state in international law only states may determine who is and who is not a citizen But such unitary status is the historical exception before sovereign nation states became the prevailing form of political organization citizenship had a range of definitions and applications Today nonstate

communities and jurisdictions both below and above the state level are once again becoming important sources of rights allegiance and status thereby constituting renewed forms of multilevel citizenship For example while the European Union protects the nation state s right to determine its own members the project to construct a democratic polity beyond national borders challenges the sovereignty of member governments Multilevel Citizenship disputes the dominant narrative of citizenship as a homogeneous status that can be bestowed only by nation states The contributors examine past and present case studies that complicate the meaning and function of citizenship including residual allegiance to empires constitutional rights that are accessible to noncitizens and the nonstate allegiance of nomadic nations Their analyses consider the inconsistencies and exceptions of national citizenship as a political concept such as overlapping jurisdictions and shared governance as well as the emergent forms of sub or supranational citizenships Multilevel Citizenship captures the complexity of citizenship in practice both at different levels and in different places and times Contributors Elizabeth F Cohen Elizabeth Dale Will Hanley Marc Helbling T rk ler Isiksel Jenn Kinney Sheryl Lightfoot Willem Maas Catherine Neveu Luicy Pedroza Eldar Sarajli Rogers M Smith
