philosophers that explore the contributions that virtue ethics can make to economics Compared to other major systems of ethics such as utilitarianism and deontology that focus on the rightness or wrongness of actions virtue ethics focuses on individuals and the virtues character and judgment that lead them to act morally For this reason virtue ethics provides a unique ethical perspective on the behavior of the individuals in economic models a perspective which has become invaluable following recent financial events in the real world The chapters in *Economics and the Virtues* provide historical and modern insights in both economics and philosophy and offer novel suggestions for incorporating the ethics of virtue into economics in order to make it more applicable to moral dilemmas in the world outside the models *Non-Invasive Respiratory Support*, Third edition Anita K. Copyright Office, 1973 **Parental Liability in EU Competition Law** Peter Whelan, 2023-08-10 In enforcing EU competition law the Commission employs a unique doctrine of parental antitrust liability it imposes fines on the parent company of an infringing subsidiary in cases where the parent exercises decisive influence over the subsidiary's commercial policy Critics of this contentious aspect of EU competition law believe that the doctrine is unfair ineffective obscure disproportionate contrary to due process and based upon a dubious if not extremely flimsy justificatory foundation Such criticism raises serious and unanswered questions about the legitimacy of the Commission's efforts to enforce competition law *Parental Liability in EU Competition Law A Legitimacy*

Focused Approach is the first monograph to be dedicated to this controversial topic Written by Professor Peter Whelan the book contends that although the general concept of parental liability can be justified in principle the current EU level doctrine of parental antitrust liability in fact suffers from a distinct and problematic lack of legitimacy More specifically the said doctrine displays significant deficiencies with respect to effectiveness fairness and legality Given this undesirable state of affairs Parental Liability in EU Competition Law offers a fully rationalised reformulated approach to parental antitrust liability for EU competition law violations that is built around the notion of parental fault That approach provides a solid normative account of how to impose parental antitrust liability in a manner that is theoretically robust effective in practice fair in substance and legally sound *The Holy Court ...
