We God's People Jocelyne Cesari, 2021-12-16

Cesari argues that both religious and national communities are defined by the three Bs belief behaviour and belonging By focusing on the ways in which these three Bs intersect overlap or clash she identifies the patterns of the politicization of religion and vice versa in any given context Her approach has four advantages firstly it combines an exploration of institutional and ideational changes across time which are usually separated by disciplinary boundaries Secondly it illustrates the heuristic value of combining qualitative and quantitative methods by statistically testing the validity of the patterns identified in the qualitative historical phase of the research Thirdly it avoids reducing religion to beliefs by investigating the significance of the institution ideas connections and fourthly it broadens the political approach beyond state religion relations to take into account actions and ideas conveyed in other arenas such as education welfare and culture

Turkish Myth and Muslim Symbol Carole Hillenbrand, 2007-11-21 Turks ruled the Middle East for a millennium and eastern Europe for many centuries and it is an undoubted fact that they moulded the lands under their dominion It is therefore something of a paradox that the history of Turkey and aspects of the identity and role of the Turks both as Muslims and as an ethnic group still remain little known in the west and undervalued in the Arabic and Persian speaking worlds This book contributes to historical scholarship on Turkey by focusing on its key foundational myth the battle of Manzikert in 1071 the Turkish equivalent of the battle of Hastings Manzikert destroyed the hold of Christian Byzantium on eastern Turkey and opened the whole country to the spread of Islam a process completed with the fall of Constantinople and Trebizond some four centuries later Translations and a close analysis of all the extant Muslim sources both Arabic and Persian which deal with the battle of Manzikert are provided in the book It also looks at these writings as literary works and vehicles of religious ideology and analyses the ongoing confrontation between the Muslim Turks and Christian Europe and the importance of Manzikert in the formation of the modern state of Turkey since 1923
