Beyond Capitalism Socialism A New Statement Of An Old Ideal:

Beyond capitalism & socialism : a new statement of an old ideal Tobias J. Tobias J. Lanz (ed),2008 **Beyond Capitalism & Socialism** Tobias J. Lanz,2008 Explaining the socio economic theory of distributism this anthology argues that political economic and social liberties and freedom are penalized under both socialism and capitalism With distributism and other third way alternatives to capitalism the human person the family and the community take precedence over bureaucrats and barons Society exists for man not the other way around **The Common Good** Bruno Petrusic,2024-09-17 The Catholic Social Teaching CST Rome Exchange Advanced Training Experience CREATE is the new initiative of the Faculty of Social Science FASS at the Pontifical University Saint Thomas Aquinas Angelicum in Rome Currently focused on Central and Eastern Europe CEE it provides ways for students and experts in Catholic social teaching CST to access resources and training in Rome so as to develop their knowledge and their capability in using CST for resolving problems faced in their local reality Catholic social teaching Rome Exchange Advanced Training Experience starts from two basic ideas 1 Catholic social thought is a powerful resource in the mission of the Church today but often it needs to be more widely known and better operationalised in practical situations 2 Rome is a centre for the development of Catholic social thought by bringing students and experts to Rome for short or longer stays we can help them to improve their knowledge of CST and practical skills in implementing it while ensuring that they stay connected with their home region CREATE is an integrated set of 5 activities Expert Council EC a network of professors and experts from different Catholic Higher Education Institutions CHEIs in the region meeting once a year in Rome CREATE Prize CP an annual competition starting in 2021 for an original essay by a young researcher student from the CEE on some application of CST to society Salamanca Process Scholarships SP doctorate scholarship and post doc scholarships for Dominican candidates sisters and brothers from Central and Eastern Europe as part of the Salamanca Process of the Dominican Order Laudato si Scholarships LS doctorate and post doc scholarships for young people from the CEE region to develop their research in their home countries and institutions with support from FASS professors Laudato si scholars will come in Rome regularly over a 2 3 year period in order to take advantage of the resources provided by the FASS and the central Catholic institutions in Rome CST Toolkit Scholarships TX a semester long programme of courses in CST January to June starting in 2022 for CEE students at the masters or doctorate level The WASP Question Andrew Fraser,2011 Fraser offers a groundbreaking contribution to the project of synthesizing Anglo American constitutional and legal history with the evolutionary biology of ethnicity and a Christian ethno theology The WASP Question is valuable for focusing attention on the plight of Anglo Saxon societies assailed by runaway materialism and imposed diversity *Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy* Jon D. Schaff,2019-07-03 This bold groundbreaking study of American political development assesses the presidency of Abraham Lincoln through the lenses of governmental power economic policy expansion of executive power and natural rights to show how Lincoln not only

believed in the limitations of presidential power but also dedicated his presidency to restraining the scope and range of it Though Lincoln s presidency is inextricably linked to the Civil War and he is best known for his defense of the Union and executive wartime leadership Lincoln believed that Congress should be at the helm of public policy making Likewise Lincoln may have embraced limited government in vague terms but he strongly supported effective rule of law and distribution of income and wealth Placing the Lincoln presidency within a deeper and more meaningful historical context Abraham Lincoln s Statesmanship and the Limits of Liberal Democracy highlights Lincoln s significance in the development of American power institutions and social movement politics Using Lincoln s prepresidential and presidential words and actions this book argues that decent government demands a balance of competing goods and the strong statesmanship that Lincoln exemplified Instead of relying too heavily on the will of the people and institutional solutions to help prevent tyranny Jon D Schaff proposes that American democracy would be better served by a moderate and prudential statesmanship such as Lincoln s which would help limit democratic excesses Schaff explains how Lincoln s views on prudence moderation natural rights and economics contain the notion of limits then views Lincoln s political and presidential leadership through the same lens He compares Lincoln s views on governmental powers with the defense of unlimited government by twentieth century progressives and shows how Lincoln s theory of labor anticipated twentieth century distributist economic thought Schaff s unique exploration falls squarely between historians who consider Lincoln a protoprogressive and those who say his presidency was a harbinger of industrialized corporatized America In analyzing Lincoln s approach Abraham Lincoln s Statesmanship and the Limits of Liberal Democracy rejects the idea he was a revolutionary statesman and instead lifts up Lincoln s own affinity for limited presidential power making the case for a modest approach to presidential power today based on this understanding of Lincoln s statesmanship As a counterpoint to the contemporary landscape of bitter uncivil politics Schaff points to Lincoln s statesmanship as a model for better ways of engaging in politics in a democracy

Sustainable Abundance for All Ted Nunez,2018-01-15 What constitutes the good life and authentic Christian leadership in a high speed technological society geared to perpetual economic growth In a world of rapid change and heightened risks how do we move beyond the tyranny of emergency and polarization toward a politics of engagement and time oriented to the long term common good Taking up key themes in the social teaching of Popes Benedict XVI and Francis Sustainable Abundance for All argues that life in a risky runaway world requires new forms of Christian praxis that are both forward looking and rooted in tradition Among the issues addressed are pathways toward sustainable development in the Anthropocene automation and the transition to post jobs society the proactionary precautionary debate over new technologies and the dangers of becoming people of the device Sustainable Abundance for All lays the groundwork for new kinds of Christian social action and prophetic witness in the twenty first century *Surviving Technopolis* Arthur W. Hunt III,2013-09-24 Technopolis has no end in view other than bigger faster newer and more While giving us many material benefits at least in

the short run in its wake are spiritual loss alienation and devastation These essays not only evaluate Technopolis but also seek wisdom to cope with our new human made environments Positively stated they offer suggestions on how to bring us back into balance Some of our best wisdom in analyzing Technopolis can be found in the voices of the Christian humanists Unlike Enlightenment humanism which tends to be human centered Christian humanism is concerned with the role of humankind within God s created order G K Chesterton T S Eliot J R R Tolkien and C S Lewis represent this tradition They and others like them understood that technological progress with no clear telos obscures what Eliot called the permanent things Surviving Technopolis means restoring the things closest to us those old identity forming institutions of home church and community

Youth Ministry Malan Nel,2018-12-01 This book aims at contributing to the scientific and academic discourse as regards to the what and why of youth ministry Too often youth ministry has been approached from a mainly practical point of view almost asking how we keep young people off the streets Its methodology has often not included the theological and theoretical presuppositions that lie behind this ministry Previous scientific reflection has been determined by a one dimensional and almost exclusive point of view In comparison with existing literature this book does not focus so much on the how of youth ministry It innovates a different approach The book challenges the existing exclusive approach and develops an inclusive congregational and missional understanding of and approach to youth ministry From a particular perspective on the understanding the main objectives of Practical Theology the author endorses the so called movement of what is supposed to be going on He adds the outcome of an empirical round table discussion with some 16 leaders in this field on the descriptive and interpretive movements within the subject field what is going on and why is it going on The book will form the standard for any new research with regard to youth ministry The book s contribution lies on the level of sound theological reasoning and argumentation supported by many scholars for an inclusive congregational understanding of ministry as an integral part of every congregation being missional in being and doing Youth children adolescents and emerging adults are just as integral a part of every congregation within which they live and serve

Liberty and the Ecological Crisis Katie Kish, Christopher Orr, Bruce Jennings, 2019-11-27 This book examines the concept of liberty in relation to civilization's ability to live within ecological limits Freedom in all its renditions choice thought action has become inextricably linked to our understanding of what it means to be modern citizens And yet it is our relatively unbounded freedom that has resulted in so much ecological devastation Liberty has piggy backed on transformations in human nature relationships that characterize the Anthropocene increasing extraction of resources industrialization technological development ecological destruction and mass production linked to global consumerism This volume provides a deeply critical examination of the concept of liberty as it relates to environmental politics and ethics in the long view Contributions explore this entanglement of freedom and the ecological crisis as well as investigate alternative modernities and more ecologically benign ways of living on Earth The overarching framework for this collection is that liberty and agency need to be rethought before these strongly held ideals of our age are forced out On a finite planet our choices

will become limited if we hope to survive the climatic transitions set in motion by uncontrolled consumption of resources and energy over the past 150 years This volume suggests concrete political and philosophical approaches and governance strategies for learning how to flourish in new ways within the ecological constraints of the planet Mapping out new ways forward for long term ecological well being this book is essential reading for students and scholars of ecology environmental ethics politics and sociology and for the wider audience interested in the human Earth relationship and global sustainability

Planning for the Caring City Claire Freeman, Etienne Nel, 2024-04-29 As the world has become increasingly urbanised and planetary well being ever more threatened questions have emerged over just what the priorities should be for how we live in cities Clearly for many the current ways of planning and managing city environments are not working given so many of their human and non human inhabitants struggle on a daily basis to maintain their well being and survival Different approaches to city development are crucial if they are to be inclusive places where all can thrive Ensuring that cities are safe and sustainable and provide a level of care for all their residents places a significant mandate on those who manage cities and on planners in particular This book examines all the parts of the city where care needs to be incorporated how we plan create nurturing environments include all who live there build sensitively support meaningful livelihoods and enable compassionate governance With planners in mind this book examines why care is needed in the urban environment and drawing on real world examples examines how it can be applied in an effective and empowering fashion [Revolution with a Human Face](#)

James Krapfl, 2013-10-15 In this social and cultural history of Czechoslovakia's gentle revolution James Krapfl shifts the focus away from elites to ordinary citizens who endeavored from the outbreak of revolution in 1989 to the demise of the Czechoslovak federation in 1992 to establish a new democratic political culture Unique in its balanced coverage of developments in both Czech and Slovak lands including the Hungarian minority of southern Slovakia this book looks beyond Prague and Bratislava to collective action in small towns provincial factories and collective farms Through his broad and deep analysis of workers declarations student bulletins newspapers film footage and the proceedings of local administrative bodies Krapfl contends that Czechoslovaks rejected Communism not because it was socialist but because it was arbitrarily bureaucratic and inhumane The restoration of a basic humanness in politics and in daily relations among citizens was the central goal of the revolution In the strikes and demonstrations that began in the last weeks of 1989 Krapfl argues citizens forged new symbols and a new symbolic system to reflect the humane democratic and nonviolent community they sought to create Tracing the course of the revolution from early idealistic euphoria through turns to radicalism and ultimately subversive reaction *Revolution with a Human Face* finds in Czechoslovakia's experiences lessons of both inspiration and caution for people in other countries striving to democratize their governments **The Neo-Orthodox Theology of W.W.**

Bryden John A Vissers, 2011-11-24 Walter W Bryden was Principal of Knox College Toronto after the Second World War and one of the leading Presbyterian theologians of the period from the 1920s to the 1950s In *The Neo Orthodox Theology of W W*

Bryden John Vissers makes an important contribution by analysing Bryden's thought placing it in the context of contemporary European and American theology Vissers emphasises in particular Bryden's role in introducing and popularising the ideas of Karl Barth in North America prior to the translation of Barth's Commentary on Romans into English and his Neo Orthodox theology owed much to Barthian ideas In his most important work *The Christian's Knowledge of God* Bryden challenged the modernist emphasis on the rational arguing for a Christocentric doctrine of Revelation Vissers brings a wealth of scholarship and research to his subject revealing Bryden's pivotal role in the development of neo orthodoxy within the Protestant tradition in North America a role that previous studies have often failed to explore **The Routledge**

Companion to Creativity Tudor Rickards, Mark A. Runco, Susan Moger, 2008-11-19 Creativity can be as difficult to define as it is to achieve This is a complex and compelling area of study and this volume is perfectly poised to explore how creativity can be better understood and used in a range of contexts The book not only centres on creativity in wider organizational theory but also defines the conditions in which creativity can flourish and assesses how the contemporary business environment has an impact on creative solutions The volume grounds the concept of creativity in a sound theoretical framework and explores issues of practical and theoretical consequence covering a range of themes including innovation and entrepreneurship creativity and design environmental influences knowledge management meta theories of creativity personal creativity structured interventions Comprising contributions written by an unusually wide array of leading creativity scholars *The Routledge Companion to Creativity* is an insightful and cutting edge resource It is an essential purchase for anyone with an interest in creativity from a business psychology or design perspective [Alexander Bogdanov and the](#)

[Politics of Knowledge after the October Revolution](#) Maria Chehonadskih, 2023-12-30 In this book Maria Chehonadskih unsettles established narratives about the formation of a revolutionary canon after the October Revolution Displacing the centre of gravity from dialectical materialism to the rapid dissemination canonisation and decline of a striking convergence of empiricism and Marxism she explores how this tendency overshadowed by official historiography establishes a new attitude to modernity and progress nature and environment agency and subjectivity party and class knowledge and power The book traces the adventure of the synthesis of empiricism and Marxism across philosophy science politics art and literature from the 1890s to the 1930s offering a radical rethinking of the true scope and scale that the main proponent of Empirio Marxism Alexander Bogdanov had on the post revolutionary socialist legacies Chehonadskih draws on both key and forgotten figures and movements such as Proletkult Productivism and Constructivism filling a gap in the literature that will be particularly significant for Marxism continental philosophy art theory and Slavic studies specialists
