The Fear Index By Robert Harris

Lauren Gardner

The Fear Index By Robert Harris:

The Fear Index Robert Harris, 2012-01-31 At the nexus of high finance and sophisticated computer programming a terrifying future may be unfolding even now Dr Alex Hoffmann's name is carefully guarded from the general public but within the secretive inner circles of the ultrarich he is a legend He has developed a revolutionary form of artificial intelligence that predicts movements in the financial markets with uncanny accuracy His hedge fund based in Geneva makes billions But one morning before dawn a sinister intruder breaches the elaborate security of his lakeside mansion and so begins a waking nightmare of paranoia and violence as Hoffmann attempts with increasing desperation to discover who is trying to destroy him Fiendishly smart and suspenseful *The Fear Index* gives us a searing glimpse into an all too recognizable world of greed and panic It is a novel that forces us to confront the question of what it means to be human and it is Robert Harris's most spellbinding and audacious novel to date

The Fear Index Robert Harris, 2012-08-21 High tech finance and sophisticated computer programming combine in this terrifying and fiendishly smart new novel from Robert Harris Dr Alex Hoffmann stays out of the public spotlight but within the secretive inner circles of the ultra rich he is a legend And now he has developed a revolutionary form of artificial intelligence that predicts movements in the financial markets with uncanny accuracy As a result his Geneva based hedge fund is poised to make billions But one morning before dawn a sinister intruder breaches the elaborate security of his lakeside mansion So begins a waking nightmare of paranoia and violence as Hoffmann attempts with increasing desperation to discover who is trying to destroy him

The Fear Index Robert Harris, 2012 A chilling contemporary thriller from Robert Harris set in the competitive world of high finance Dr Max Hoffman is a legend A physicist once employed on the Large Hadron Collider he now uses a revolutionary and highly secret system of computer algorithms to trade on the world's financial markets None of his rivals is sure how he does it but somehow Hoffman's hedge fund built around the standard measure of market volatility the VIX or Fear Index generates astonishing returns for his investors Late one night in his house beside Lake Geneva an intruder disturbs Hoffman and his wife while they are asleep This terrifying moment is the start of Robert Harris's new novel a story just as compelling and timely as his most recent contemporary thriller *The Ghost* Over the next 48 hours as the markets edge towards another great crash Hoffman's world disintegrates But who is trying to destroy him

On Capitalism and Inequality Robert U. Ayres, 2020-05-29 Capitalism is under attack Defenders say that capitalism has raised billions of people from poverty But a central activity of capitalism today Wall Street style is speculation gambling using other people's money and privatizing the profits while socializing the debts Skeptics argue that capitalism has redistributed the wealth of the planet in favor of a very few meanwhile leaving the planet in bad shape and leaving billions of people out in the cold Wealth is now extremely mal distributed opportunity is far from equal and upward social mobility has declined significantly in recent decades This book reviews the evidence and arguments pro and con in considerable detail The evidence is mixed The main virtue of capitalism is its emphasis on

competition as a driver of innovation and thus of economic growth It is true that economic growth has accelerated in recent centuries and it is true that billions of people have been lifted from poverty But it is not necessarily true that intense winner take all competition in the marketplace is the explanation for growth Neoclassical economic theory posits that self interest is the primary motive for all economic decisions leaving little room for cooperation and even less for altruism The theory applies to an unrealistic model of human behavior known as Homo economicus or economic man whose characteristic activity is buying or selling The reason for using the adjective word social as in socialism or social service or social democracy is essentially to deny those postulates of standard economic theory Real humans are not rational utility maximizers whatever that is and very often do things that are not in their own personal best interests This can happen because other interests such as family loyalty professional religious or patriotic duty may take precedence Real people rarely behave like Homo economicus who has rivals but no friends He or she does not trust anyone hence cannot cooperate with others and can never create or live in a viable social system or marriage Yet social systems ranging from families and tribes to firms cities and nations do and must exist or civilization cannot exist A viable social system must not allow winner takes all It must reallocate some of the societal wealth being created by competitive activities to support the young the old and the weak because all of those people have equal rights if not the same luck or the same skills Both competition and cooperation have important roles to play A hybrid capitalism involving both is the only viable solution The book ends with a specific suggestion namely Universal Basic Income or UBI

Transmedia Creatures Francesca Saggini, Anna Enrichetta Soccio, 2018-10-19 On the 200th anniversary of the first edition of Mary Shelley's *Frankenstein* *Transmedia Creatures* presents studies of *Frankenstein* by international scholars from converging disciplines such as humanities musicology film studies television studies English and digital humanities These innovative contributions investigate the afterlives of a novel taught in a disparate array of courses *Frankenstein* disturbs and transcends boundaries be they political ethical theological aesthetic and not least of media ensuring its vibrant presence in contemporary popular culture *Transmedia Creatures* highlights how cultural content is redistributed through multiple media forms and modes of production including user generated ones from below that often appear synchronously and dismantle and renew established readings of the text while at the same time incorporating and revitalizing aspects that have always been central to it The authors engage with concepts value systems and aesthetic moral categories among them the family horror monstrosity diversity education risk technology the body from a variety of contemporary approaches and highly original perspectives which yields new connections Ultimately *Frankenstein* as evidenced by this collection is paradoxically enriched by the heteroglossia of preconceptions misreadings and overreadings that attend it and that reveal the complex interweaving of perceptions and responses it generates Published by Bucknell University Press Distributed worldwide by Rutgers University Press *The Fear Index* Reader's Digest Association, Robert Harris, Anthony Horowitz, Sandra Brown, Alan Titchmarsh, Reader's Digest Association

Staff,2012 **Algo Bots and the Law** Gregory Scopino,2020-10-15 An exploration of how financial market laws and regulations can and should govern the use of artificial intelligence **The Cambridge Companion to British Fiction since 1945** David James,2015-10-06 This Companion offers a compelling engagement with British fiction from the end of the Second World War to the present day Since 1945 British literature has served to mirror profound social geopolitical and environmental change Written by a host of leading scholars this volume explores the myriad cultural movements and literary genres that have affected the development of postwar British fiction showing how writers have given voice to matters of racial regional and sexual identity Covering subjects from immigration and ecology to science and globalism this Companion draws on the latest critical innovations to provide insights into the traditions shaping the literary landscape of modern Britain thus making it an essential resource for students and specialists alike *Finance Fictions* Arne De Boever,2018-03-06 *Finance Fictions* takes the measure of what it means to live in a world ruled by high finance by examining the tension between psychosis and realism that plays out in the contemporary finance novel When the things traded at the center of the economy cease to be things at all but highly abstracted speculations how do we come to see the real What sorts of narrative can accurately approach the actual workings of a neoliberal economy marked by accelerating cycles of market crashes economic and political crisis and austerity Revisiting such twentieth century classics of the genre as Tom Wolfe s *Bonfire of the Vanities* and Bret Easton Ellis s *American Psycho* De Boever argues that the twenty first century is witnessing the birth of a new kind of realistic novel that can make sense of complex financial instruments like collateralized debt obligations credit default swaps and digital algorithms operating at speeds faster than what human beings or computers can record If in 1989 Wolfe could still urge novelists to work harder to tame the billion footed beast of reality today s economic reality confronts us with a difference that is qualitative rather than quantitative a new financial ontology requiring new modes of thinking and writing Mobilizing the philosophical thought of Quentin Meillassoux in the close reading of finance novels by Robert Harris Michel Houellebecq Ben Lerner and less well known works of conceptual writing such as Mathew Timmons *Credit Finance Fictions* argues that realism is in for a speculative update if it wants to take on the contemporary economy an if whose implications turn out to be deeply political Part literary study and part philosophical inquiry *Finance Fictions* seeks to contribute to a new mindset for creative and critical work on finance in the twenty first century **Retroland** Peter Kemp,2023-01-01 The essential companion for lovers of the contemporary novel Over the past fifty years fiction in English has never looked more various Books bulkier than Victorian three deckers appear alongside works of minimalist brevity and experiments with form have produced everything from verse novels to Twitter thread narratives This is truly a golden age But what unites this kaleidoscopic array of genres and styles Celebrated writer and critic Peter Kemp shows how modern writers are obsessed with the past In a series of engaging and illuminating chapters *Retroland* traces this novelistic preoccupation with history from the imperial and the political to the personal and the literary Featuring famous names from

across the United Kingdom United States and the wider Anglophone world ranging from Salman Rushdie to Sarah Waters Toni Morrison to Hilary Mantel this is a work of remarkable synthesis and clarity a wonderfully readable and enjoyably opinionated guide to our current literary landscape The Market Logics of Contemporary Fiction Paul

Crosthwaite,2019-07-18 Contemporary British and American fiction is defined by financial markets power over the global publishing industry and the global economy *New Worlds from Old Texts* Elton Thomas Edward Barker,Stefan

Bouzarovski,C. B. R. Pelling,Leif Isaksen,2016 Written by a highly interdisciplinary range of contributors *New Worlds from Old Texts* explores ancient Greek perceptions of space and how they may have differed from the modern cartographic view

Yesterday's Tomorrows Pere Gallardo,Elizabeth Russell,2014-03-26 2012 was a year of financial crises and ecological disasters of endings and forebodings The world did not end on December 21st as the Mayan calendar predicted but became the stage for new beginnings utopian communities protest groups and solidarity movements The essays in this book form an intertextual space for negotiating meaningful facts and fictions with an aim to understanding the present Discussions focus on utopia and dystopia from literature and film not only within the framework of science fiction but also critical theory gender politics and social sciences The authors of these essays are international academics whose interest lies in utopian studies and who attended the 13th International Conference of Utopian Studies The Shape of Things to Come held in Tarragona Spain in 2012 The Spectator ,2011 **Communications and Mobility** David Morley,2017-06-26

Communications and Mobility is a unique interdisciplinary look at mobility territory communication and transport in the 21st century with extended case studies of three icons of this era the mobile phone the migrant and the container box Urges scholars in media and communication to return to broader conceptions of the field that include mobility of all kinds information people and commodities Embraces perspectives from media studies science and technology studies sociology media anthropology and cultural geography Discusses ideas of virtual and embodied mobility network geographies de territorialization sedentarism nomadology connectivity containment and exclusion Integrates the often neglected transport studies into contemporary communication studies and theories of globalization Britannica Book of the Year 2012

Encyclopaedia Britannica, Inc.,2012-03-01 The Britannica Book of the Year 2012 provides a valuable viewpoint of the people and events that shaped the year and serves as a great reference source for the latest news on the ever changing populations governments and economies throughout the world It is an accurate and comprehensive reference that you will reach for again and again **The Fear Index** Robert Harris,2022-03-29 NOW A LANDMARK SKY MINI SERIES STARRING JOSH

HARTNETT Could scarcely be more of the moment THE TIMES Harris is a master of pace and entertainment OBSERVER Nothing spreads like fear In the secretive inner circle of the ultra rich Alex Hoffmann is a legend He has developed an algorithm for playing the financial markets that generates billions of pounds and feeds on panic When one day his system is threatened by a terrifying intruder who breaches the elaborate security of his lakeside home his life becomes a waking

nightmare of violence and paranoia But who is trying to destroy him And is it already too late There are moments when this book feels so up to date it could have been written next week spookily exciting EXPRESS The Fear Index is a frightening book of course as with its title it intends Harris has an excellent sense of pace TELEGRAPH

Birth of the Financial Thriller Mikkel Krause Frantzen, 2025-03-31 Discover the untold story of the financial thriller a genre pioneered by Canadian banker turned author Paul Erdman from a Swiss prison cell Starting with the publication of *The Billion Dollar Sure Thing* in 1973 this book explores the genre's evolution as a popular and even vulgar genre of financialisation characterised by volatile plots centred on currency speculation where the central mystery is money not murder By contextualising the rise of financial thrillers within the dramatic events of the 1970s such as the abolition of the Bretton Woods system and the oil crises this book illustrates how a genre found the world of finance during a particular historical moment but also how the world of finance found its genre This compelling narrative connects the past to our present financial landscape making it essential for anyone interested in the intersection of economic literary and cultural history

Cogs and Monsters Diane Coyle, 2023-04-11 How economics needs to change to keep pace with the twenty first century and the digital economy Digital technology big data big tech machine learning and AI are revolutionizing both the tools of economics and the phenomena it seeks to measure understand and shape In *Cogs and Monsters* Diane Coyle explores the enormous problems but also opportunities facing economics today and examines what it must do to help policymakers solve the world's crises from pandemic recovery and inequality to slow growth and the climate emergency Mainstream economics Coyle says still assumes people are cogs self interested calculating independent agents interacting in defined contexts But the digital economy is much more characterized by monsters untethered snowballing and socially influenced unknowns What is worse by treating people as cogs economics is creating its own monsters leaving itself without the tools to understand the new problems it faces In response Coyle asks whether economic individualism is still valid in the digital economy whether we need to measure growth and progress in new ways and whether economics can ever be objective since it influences what it analyzes Just as important the discipline needs to correct its striking lack of diversity and inclusion if it is to be able to offer new solutions to new problems Filled with original insights *Cogs and Monsters* offers a road map for how economics can adapt to the rewiring of society including by digital technologies and realize its potential to play a hugely positive role in the twenty first century

AI for the Good Stefan H. Vieweg, 2021-04-24 While technology advances at a high pace in the age of machine learning there is a lack of clear intent and framing of acceptable ethical standards This book brings together the complex topic of good technology in a cross functional way alternating between theory and practice The authors address the ever expanding discussion on Artificial Intelligence AI and ethics by providing an orientation Pragmatic and recent issues are especially taken into account such as the collateral effects of the COVID19 pandemic An up to date overview of digitization already a very broad field in itself is presented along with an analysis of the approaches of AI from an ethical perspective

Furthermore concrete approaches to consider appropriate ethical principles in AI based solutions are offered The book will be appealing to academics from humanities or business or technical disciplines as well as practitioners who are looking for an introduction to the topic and an orientation with concrete questions and assistance

This is likewise one of the factors by obtaining the soft documents of this **The Fear Index By Robert Harris** by online.
