## **The Girl Who Chased The Moon By Sarah Addison Allen:**

*The Girl Who Chased the Moon* Sarah Addison Allen, 2010-08-05 Emily Benedict came to Mullaby North Carolina hoping to solve at least some of the riddles surrounding her mother's life. But the moment Emily enters the house where her mother grew up and meets the grandfather she never knew she realises that mysteries aren't solved in Mullaby they're a way of life. Here are rooms where the wallpaper changes to suit your mood. Unexplained lights skip across the yard at midnight. And a neighbour Julia Winterson bakes hope in the form of cakes offering them to satisfy the town's sweet tooth but also in the hope of rekindling a love she fears might be lost forever. Can a hummingbird cake really bring back a lost love? Is there really a ghost dancing in Emily's backyard? The answers are never what you expect. But in this town of lovable misfits the unexpected fits right in.

**Raising 4 Dimensional Children in a 2 Dimensional World** Tim McCarthy, 2021-07-15  
Worried about Whether You're being a Good Parent? Maybe you have a newborn and you don't know what to expect. Maybe your child gets angry and you don't understand why. Maybe your child spends too much time on the Phone or Gaming. Don't fret. You have what it takes to get the results you desire with a little help. New Knowledge is the First Step. It's hard to solve a problem if you don't understand the problem. You probably never realized that your child actually develops in 4 Dimensions. The Physical, Mental, Emotional, and Spiritual. Neglecting even one dimension can be a source of problems. When you understand your child's capabilities and limitations in each of the 4 Dimensions at each specific age, you will see more clearly why he or she is acting that way. Taking Action is the Second Step. Knowledge isn't really power until it is put into action. Once you have the theory, you need practical solutions that will give you results. You need clear actions you can take with your child to help him/her develop in each dimension. *Raising 4 Dimensional Children in a 2 Dimensional World* is a book that gives you both. It has the knowledge you need and it also gives you over 400 educational and fun activities to help your child reach new milestones in growth in each dimension. It's the Instruction Manual for Parenting that you didn't get with your child. Parenting can be tough, but you don't need a degree in psychology or education to raise your child because this book has the results of years of educational and psychological research explained in simple language, then coordinates those results with easy and fun activities that your children will love. Now is the time to develop a new relationship with your children using activities to enjoy the quality time you have after school, after work, and on weekends. Parenting can be easy and even fun when you have the right tools. You CAN do this.
