Weldon, 2018-07-12 Learning to write starts with learning to do one big thing pay attention to the world around you even though just about everything in modern life makes this more difficult than it needs to be Developing habits and practices of observing and writing down what you notice can be the first step away from the anxieties and doubts that can hold you back from your ultimate goal as a writer discovering something to say and a voice to say it in The Writer's Eye is an inspiring guide for writers at all stages of their writing lives Drawing on new research into creative writers and their relationship with the physical world Amy E Weldon shows us how to become more attentive observers of the world and find inspiration in any environment Including exercises writing prompts and sample texts and spanning multiple genres from novels to nonfiction to poetry this is the ideal starting point for anyone beginning to write seriously and offers refreshing perspectives for experienced writers seeking new inspiration The Unknown Cities Abeer Elshater, 2016-04-22 This book investigates the many relatively unknown Egyptian cities which research has largely ignored It seeks to enhance the livability of urban areas and stop the processes that turn residents into anti utopians and their cities into dystopias It examines urbanization patterns in what are currently rural or informal settlements It draws on concepts from Western and Arabic thought concerning idealism and utopianism linking anti utopianism with ideas such as loss of hope

and residents right to the city It also investigates the epistemology and methodology of urban design using the descriptive analytical approach to evaluate methods of self criticism to address the problems and enhance urban planning and design The literature regarding ten minute neighborhoods is reviewed along with a comparative content analysis of online articles and the resultant principles are tested through site observation It is found that happiness can be promoted by the principle of ten minute pedestrian access to essential services which can viably guide the reformation of urban planning This work recommends that urban planning should be based on the ten minute neighborhood thus improving the future prospects of utopianism in Egypts unknown cities Recently in the first decade of the twenty first century there was a definite human crisis that emerged in the Egyptian cities at the level of local urban communities which reflects on the whole city and the attached ones The problem seems to be in the transformation of some urban sites in the metropolitan and small cities to become dystopian places regarding the dynamic impact of the anti utopian people The concept of anti utopians stands as an intermediate step between livable cities and dystopian communities through the transformation that occurs due to the lack of strategic plans by the administrators and or the experts with a special mention to the plans for poor people Therefore from our perspective there is an urgent need to say that the majority of Egyptian cities should be declared as domains of humanitarian disasters which are caused by human hazards rather than the natural disasters e g earthquakes volcanoes floods whirlwinds and hurricanes Thus the first headmost city that will announce its failure in the structural and human scene will get the self respect and worlds estimate as well **Author In Progress** Therese Walsh, Writer Unboxed, 2016-11-01 Empower Your Writing Through Craft and Community Writing can be a lonely profession plagued by blind stumbles writer s block and despair but it doesn t have to be Written by members of the popular Writer Unboxed website Author in Progress is filled with practical candid essays to help you reach the next rung on the publishing ladder By tracking your creative journey from first draft to completion and beyond you can improve your craft find your community and overcome the mental barriers that stand in the way of success Author in Progress is the perfect no nonsense guide for excelling at every step of the novel writing process from setting goals researching and drafting to giving and receiving critiques polishing prose and seeking publication You ll love Author in Progress if You re an aspiring novelist working on your first book You re an experienced veteran looking for ways to enhance your career and connect with your writing community You ve finished your first draft and want to know the next steps You re seeking clear effective advice about publication from professionals who are down in the trenches every day What's Inside Author in Progress features More than 50 essays from best selling authors editors and industry leaders on a variety of writing and publishing topics Advice on writing first drafts conducting research building and fostering community seeking critique revising and getting published An encouraging approach to the writing and publishing process from authors who ve walked this path Talking Book Topics ,2021
