Misreading England Raphaël Ingelbien, 2021-11-01 In Misreading England Poetry and Nationhood Since the Second World War Rapha l Ingelbien examines how issues of nationhood have affected the works and the reception of several English and Irish poets Philip Larkin Ted Hughes Geoffrey Hill and Seamus Heaney This study explores the interactions between post war English poets and the ways in which they transformed or misread earlier poetic visions of England Romantic Georgian Modernist It also traces often neglected but crucial links between their troubled poetics of Englishness and Seamus Heaney's poetry of Irish nationhood This radically intertextual approach takes issue with influential accounts of post war poetry that have drawn on postcolonialism Instead of being made to reflect contemporary agendas the poetics of nationhood are here considered in all their textual and ideological complexity and restored to the historical intellectual and literary contexts which postcolonial emphases on identity often play down or simplify Whereas critics in post devolution Britain increasingly use texts to debunk or promote specific versions of national identity this study interrogates the very terms in which the debate has been conducted Its metacritical analyses expose the contradictions of identity politics and its intertextual readings help re draw the map of post war poetry in Britain and Ireland A Study Guide for Ted Hughes's "The Rain Horse" Gale, Cengage Learning, A Study Guide for Ted Hughes s The Rain Horse excerpted from Gale s acclaimed Short Stories for Students This concise study guide includes plot summary character analysis author biography study guestions historical context suggestions for further reading and much more For any literature project trust Short Stories for Students for all of your research needs Ted Hughes Keith M. Lehmberg, Thomas William Heyck, 2002 Presenting material on themes such as women s history the family religion intellectual history society politics and the arts these volumes provide a resource for students of the political and cultural heritage of the British Isles American and British Poetry Harriet Semmes Alexander, 1984 Skeptical Music David Bromwich, 2001-04-05 Skeptical Music collects the essays on poetry that have made David Bromwich one of the most widely

admired critics now writing Both readers familiar with modern poetry and newcomers to poets like Marianne Moore and Hart Crane will relish this collection for its elegance and power of discernment Each essay stakes a definitive claim for the modernist style and its intent to capture an audience beyond the present moment The two general essays that frame Skeptical Music make Bromwich's aesthetic commitments clear In An Art without Importance published here for the first time Bromwich underscores the trust between author and reader that gives language its subtlety and depth and makes the written word adequate to the reality that poetry captures For Bromwich understanding the work of a poet is like getting to know a person it is a kind of reading that involves a mutual attraction of temperaments The controversial final essay How Moral Is Taste explores the points at which aesthetic and moral considerations uneasily converge In this timely essay Bromwich argues that the wish for excitement that poetry draws upon is at once primitive and irreducible Skeptical Music most notably offers incomparable readings of individual poets An essay on the complex relationship between Hart Crane and T S Eliot shows how the delicate shifts of tone and shading in their work register both affinity and resistance A revealing look at W H Auden traces the process by which the voice of a generation changed from prophet to domestic ironist Whether discussing heroism in the poetry of Wallace Stevens considering self reflection in the poems of Elizabeth Bishop or exploring the battle between the self and its images in the work of John Ashbery Skeptical Music will make readers think again about what poetry is and even more important why it still matters The Figure of the Animal in Modern and Contemporary **Poetry** Michael Malay, 2018-06-05 This book argues that there are deep connections between poetic thinking and the sensitive recognition of creaturely others It explores this proposition in relation to four poets Marianne Moore Elizabeth Bishop Ted Hughes and Les Murray Through a series of close readings and by paying close attention to issues of sound rhythm simile metaphor and image it explores how poetry cultivates a special openness towards animal others. The thinking behind this book is inspired by J M Coetzee's The Lives of Animals In particular it takes up that book s suggestion that poetry invites us to relate to animals in an open ended and sympathetic manner Poets according to Elizabeth Costello the book s protagonist return the living electric being to language and doing so compel us to open our hearts towards animals and the claims they make upon us There are special affinities for her between the music of poetry and the recognition of others But what might it mean to say that poets to return life to language And why might this have any bearing on our relationship with animals Beyond offering many suggestive starting points Elizabeth Costello says very little about the nature of poetry s special relationship with the animal one aim of this study then is to ask of what this relationship consists not least by examining the various ways poets have bodied forth animals in language
