Masculinity in Contemporary New York Fiction Peter Ferry, 2014-08-21 Masculinity in Contemporary New York Fiction is an interdisciplinary study that presents masculinity as a key thematic concern in contemporary New York fiction This study argues that New York authors do not simply depict masculinity as a social and historical construction but seek to challenge the archetypal ideals of masculinity by writing counter hegemonic narratives Gendering canonical New York writers namely Paul Auster Bret Easton Ellis and Don DeLillo illustrates how explorations of masculinity are tied into the principal themes that have defined the American novel from its very beginning The themes that feature in this study include the role of the novel in American society the individual and urban society the journey from innocence to awareness of masculinity the archetypal image of the absent and or patriarchal father the impact of homosocial relations on the everyday performance of masculinity male sexuality and the male individual and globalization What connects these contemporary New York writers is their employment of the one of the great figures in the history of literature the fl neur These authors take the fl neur from the shadows of the Manhattan streets and elevate this figure to the role of self reflexive agent of male subjectivity through which

they write counter hegemonic narratives of masculinity This book is an essential reference for those with an interest in gender studies and contemporary American fiction *The Seventh Age of Man* Muriel Cassel-Piccot, Geneviève Lheureux, 2019-01-23 *The Seventh Age of Man* Issues Challenges and Paradoxes is a collection of academic essays on Old Age The contributors come from a wide range of fields of expertise which accounts for the originality of the book Depending on their respective disciplines the authors resort to various methodological approaches from sociological case studies to discourse analysis and from historical and political theories to media criticism but they often address similar questions when are people to be considered as old what does it mean to be old how do we deal with ageing and reach similar conclusions about the paradoxical representations of the elderly whether in Renaissance Europe or in contemporary China Although men and women are sometimes treated differently in most societies the older generation is alternately perceived as a threat and a burden or as financial and moral support If they are often criticized or ridiculed especially when they try to retain their youthful looks long after their prime the elderly also trigger a feeling of nostalgia as representatives of a past usually seen as more desirable than the present Their resilience and independence are regularly emphasized as well as their wisdom as a result of their long experience which helps them to contemplate their ends more serenely and which might turn them into models for their contemporaries *Paul Auster and the Influence of Maurice Blanchot* María Laura Arce, 2016-04-05 Poet writer and filmmaker Paul Auster is one of the great contributors to American postmodern literature Influenced by authors like Poe and the hardboiled detective stories of the 1950s Auster's novels represented a new genre of anti detective fiction in which the case itself loses direction and is overshadowed by existential questions Analyzing three of his novels *Ghosts* 1986 *The Music of Chance* 1990 and *Mr Vertigo* 1994 this critical study explores the intertextual relationship between Auster's work and the oeuvre of French writer and critic Maurice Blanchot The author explores Auster's work as a fictionalization of Blanchot's concept of inspiration and the construction of imaginary space **Basic Paradoxe in Paul Auster's "The Invention of Solitude" and Others Novels** Juliette Tissot, 1994 [Light Writing & Life Writing](#) Timothy Dow Adams, 2000 On the surface the use of photography in autobiography appears to have a straightforward purpose to illustrate and corroborate the text But in the wake of poststructuralism the role of photography in autobiography is far from simple or one dimensional [The Sublime Today](#) Gillian B. Pierce, 2013-01-04 *The Sublime Today* considers contemporary applications of aesthetic philosophy and earlier theories of the sublime from Longinus Boileau Burke Kant and Hegel to current literary and cultural contexts Today aesthetic experience itself seems to be changing given the rise of new media and new conditions for the viewing and the reception of works of art How might the rhetoric of the sublime be used to both describe our current situation and help formulate constructive responses to it *The Sublime Today* collects the work of scholars in literature film art and media studies and provides a forum for investigating the contemporary relevance of the sublime both as it has been understood historically and as it has been formulated by more recent theorists such as Jameson Lyotard Kristeva and others

The volume includes essays on literary readings of the sublime in Coetzee Eggers Lahiri and Auster essays on film and the visual arts in the work of François Ozon and in recent participatory art and essays on how new technologies and media as in media representations of 9/11 re frame our relationship to the aesthetics of the sublime especially as they intersect with questions of gender the postcolonial and the uneasy politics of terror

The Autobiographical Discourse in The Invention of Solitude by Paul Auster, 2013

Mapping Liminalities Lucy Kay, Zoë Kinsley, Terry Phillips, Alan Roughley, 2007 The essays in this book offer new perspectives on the concept of liminality They explore the relevance and significance of the limen or threshold from a variety of critical and theoretical perspectives and across a broad range of historical periods The authors all seek to revisit key questions raised in recent literary and cultural criticism whilst also moving that discussion in new directions In particular the essays stress the importance of defining liminality for particular literary and cultural contexts and highlight the fact that whilst it is liberating and progressive in some instances in others it is violent and oppressive Examining texts from the early modern to the postmodern periods by authors on both sides of the Atlantic the volume embraces a wide range of literary forms including novels travel narratives religious texts and philosophical treatises it also includes consideration of non literary forms of representation such as photography This book reveals the complexity of the concept of liminality and underscores its powerfulness and potential for understanding the ways in which both individuals and communities in the past and in the present day negotiate states of transition and give expression to their experience of being in between

Literary Rooms Katharina Christ-Pielensticker, 2021-03-26 The four prose texts discussed in *Literary Rooms* position themselves in a literary tradition which highlights the manifold purposes the private room may serve it is a mirror of the inhabitant a context in which to position the self a place of and motor for identity quests a rich metaphor and a second skin around the inhabitant's physical body Even in times of increasing globalization and urbanization the room continues to root the inhabitant it serves as a retreat from the world and as a place in which to re negotiate questions of belonging gender class and ethnicity At the same time the room is inevitably porous and constantly oscillates between inclusion and exclusion The literary texts examined in this book are each highly fragmented and gesture towards a fragmentation of the contemporary world out of which they have grown as well as towards an abundance of fragmented self images Linking the approaches of narratology globalization and spatial criticism *Literary Rooms* argues that in order to account for the spatial properties of the room discourses developed during the spatial turn need to be extended and reevaluated

The Thousand and One Nights and Twentieth-Century Fiction Richard van Leeuwen, 2018-07-17 It is gradually being acknowledged that the Arabic story collection *Thousand and One Nights* has had a major influence on European and world literature This study analyses the

influence of *Thousand and One Nights* as an intertextual model on 20th century prose from all over the world. Works of approximately forty authors are examined, those who were crucial to the development of the main currents in 20th century fiction such as modernism, magical realism and post modernism. The book contains six thematic sections divided into chapters discussing two or three authors' works each from a narratological perspective and supplemented by references to the cultural and literary context. It is shown how *Thousand and One Nights* became deeply rooted in modern world literature especially in phases of renewal and experiment.

Papyrus Irene Vallejo, 2025-02-04. A masterly Economist prize winning internationally bestselling history of books in the ancient world. Exquisite. Beautifully translated into English by Charlotte Whittle who is able to convey both Vallejo's passionate narrative presence and her synthesising intelligence. The Guardian. Long before books were mass produced, hand copied scrolls made from Nile River reeds were the treasures of the ancient world. Emperors and pharaohs determined to possess them dispatched emissaries to the edges of the known world to bring them back. Exploring the deep and fascinating history of the written word from the oral tradition to scrolls to codices, internationally bestselling author Irene Vallejo shows that books have always been a precious and precarious vehicle for civilization. Through fascinating stories from history, insightful readings of the classics and poignant personal reflection, Vallejo traces the dramatic history of the book and the fight for its survival. At its heart, a spirited love letter to language itself, *Papyrus* takes readers on a journey across the centuries to discover how a simple reed grown along the banks of the Nile would give birth to a rich and cherished culture.

Live Deep and Suck all the Marrow of Life: H.D. Thoreau's Literary Legacy María Laura Arce Álvarez, Eulalia Piñero Gil, 2020-07-07. Considered to be one of America's great intellectuals, Thoreau was deeply engaged in some of the most important social debates of his day, including slavery, the emergence of consumerism, the American Dream, living on the frontier, the role of the government and the ecological mind. As testimony to Thoreau's remarkable intellectual heritage, his autobiography, essays and poetry still continue to inspire and attract readers from across the globe. As a celebration of H.D. Thoreau's Bicentenary 1817-1862, this edited volume offers a re-reading of his works and reconsiders the influence that his transcendentalist philosophy has had on American culture and literature. Taking an intertextual perspective, the contributors to this volume seek to reveal Thoreau's influence on American Literature and Arts from the 19th century onwards and his fundamental contribution to the development of 20th century American Literature. In particular, this work presents previously unconsidered intertextual analyses of authors that have been influenced by Thoreau's writings. This volume also reveals how Thoreau's influence can be read across literary genres and even seen in visual manifestations such as cinema.
