The Elephant Keeper By Christopher Nicholson:

The Elephant Keeper Christopher Nicholson, 2009-02-13 I asked the sailor what an Elephant looked like he replied that it was like nothing on earth Winter Christopher Nicholson, 2016-01-05 This beautifully restrained novel a meditation on aging marriage and loss fictionalizes a well known period in Thomas Hardy's life The New York Times A November morning in the 1920s finds an elderly man walking the grounds of his Dorchester home pondering his past and future with deep despondence That man is the revered novelist and poet Thomas Hardy and this is a fictionalized account of his final years from the celebrated author of *The Elephant Keeper* The novel focuses on true events surrounding the London theater dramatization of Hardy's acclaimed novel *Tess of the D'Urbervilles* including Hardy's hand picked casting of the young alluring Gertrude Bugler to play Tess As plans for the play solidify Hardy's interest in Gertie becomes a voyeuristic infatuation causing him to write some of the best poems of his career However when Hardy's reclusive neglected wife Florence catches wind of Hardy's desire for Gertie to take the London stage a tangled web of jealousy and missed opportunity ensnares all three characters with devastating results Told from the perspectives of Hardy Gertie and Florence *Winter* is a meditation on love regret and an elusive yearning for happiness Kirkus Reviews starred review A book for grown ups one that finds the acme of human happiness in a young mother looking out at a starry winter's night while she holds her baby in her arms The Washington Post *Winter* is quietly intelligent and compassionate but what stands out most is that it is gorgeously gorgeously written in prose so elegantly crafted that it becomes paradoxically almost invisible It never shouts never startles just moves lithely along with an almost miraculous sense of rightness Minneapolis Star Tribune **The Tiger That Swallowed the Boy** John Simons, 2012-11-30 This book asks an important question If you were born in rural England in 1837 and died in 1901 and never travelled more than thirty miles in any direction would you have seen a hippopotamus before you died The answer is surprisingly yes In fact the roads of England were thronged with all manner of creatures There were even exotic butterfly farms Kangaroos hopped around the lawns of stately homes tigers prowled the backstreets of the East End a tapir terrorised the people of Rochdale an angry cassowary pursued a Lord as he was out for his daily ride a boa constrictor got loose in Tunbridge Wells This book is the first to explore the full and surprising extent of the exotic animal trade in nineteenth century England and its colonies It combines deep and original scholarly research with a lively style aimed at the non academic reader It looks at zoological gardens travelling menageries private menageries circuses and natural history museums to show exotic animals played a key part in the Imperial project and in the project to ensure that leisure was educational It shows how this trade was intimately connected with the tides of Empire and how as Germany rose one area of competition in which Britain came off worst was the scramble for elephants *Ecocriticism* Greg Garrard, 2023-03-29 *Ecocriticism* explores the ways in which we imagine and portray the relationship between humans and the environment across many areas of cultural production including Romantic poetry wildlife documentaries climate models

the Hollywood blockbuster *The Day After Tomorrow* and novels by Margaret Atwood Kim Scott Barbara Kingsolver and Octavia Butler Greg Garrard's animated and accessible volume responds to the diversity of the field today and explores its key concepts including pollution pastoral wilderness apocalypse animals Indigeneity the Earth Thoroughly revised to reflect the breadth and diversity of twenty first century environmental writing and criticism this edition addresses climate change and justice throughout and features a new chapter on Indigeneity It also presents a glossary of terms and suggestions for further reading Concise clear and authoritative *Ecocriticism* offers the ideal introduction to this crucial subject for students of literary and cultural studies

Literary Animal Studies in the Anthropocene Jiang Lifu, 2022-08-08 In 2000 the Nobel Prize winning chemist Paul J Crutzen and marine science specialist Eugene Stoermer coined the term Anthropocene based on the assumption that the global impacts of human activities during the last 300 years are so significant and far reaching in scale that they lead to a new geological epoch The Anthropocene is adopted to signify the epoch subsequent to the Holocene in which human actions are shaping the planet so profoundly that they are now acting as a geological force In this era human activity is the dominant influence on the environment and all lives on earth This is the age we are currently living in though debates about precisely when it began continue to rage The term has not as yet officially accepted within the field of geology however as a frame for understanding a period of geological time marked by the significant impact of human activity on the planet the Anthropocene has extraordinary potential and it is a unique term simultaneously oriented to the past present and future Human Animal viii As Morten T nnessen Kristin Armstrong Oma argued no matter what one thinks about the Anthropocene the notion radically changes how we look at nature and mankind viii

Through the Eyes of Ernest D. McFee, 2014-01-08 Ever wonder what happens to the zoo and circus elephants after the all the people go home for the day Ernest knows Ernest is a captive born elephant with no connection to his wild relatives He has had no chance to experience the wild and this is perhaps his greatest tragedy He doesn't know what he is missing but he's about to find out Ernest is one of thousands of elephants kept in zoos and circuses for the amusement of humans Throughout the day humans stare at him and make silly faces At night he's confined to a tiny paddock He has no idea about life in the wild where close knit families of elephants live as long as humans presuming humans let them His first elephant friend wild born Frankie tells Ernest all about the pleasures of living wild and the family he misses so much When humans send Ernest to the circus to perform he meets other wild born elephants including wise old Mary and majestic motherly Eve Ernest learns more about what he's been denied even as he discovers the rigorous sometimes brutal world of circus training A somber but ultimately hopeful tale told from an elephant's point of view *Through the Eyes of Ernest A Memoir to Honor Elephants* asks us to consider why we keep such intelligent social animals in captivity
