Christopher S. Celenza,2018 This book offers a new view of Italian Renaissance intellectual life linking philosophy and literature as expressed in both Latin and Italian      **Philip Melanchthon and the Cappadocians** H. Ashley Hall,2014-03-12 This work offers a comprehensive examination of how Philip Melanchthon 1497 1560 a great philologist pedagogue and theologian of the Reformation used Greek patristic sources throughout his extensive career The Cappadocian Fathers here identified as Gregory Thaumaturgus Basil of Caesarea Gregory Nazianzen and Gregory of Nyssa were received through the medieval period to be exemplary theologians In the hands of Melanchthon they become tools to articulate the Evangelical Lutheran theological position on justification by grace through faith alone the necessity of formal education for theologians in literature and the natural sciences the freedom of the will under divine grace exemplars for bishops and even princes and not least as models of Attic Greek grammar and biblical exegesis for university students The book is organized around Melanchthon s use of Cappadocian works against his opponents Roman Catholic the Radical Reformers the Reformed and in Intra Lutheran controversies The author places Melanchthon within the context of the patristic reception of his time Moreover an appendix offers a sketch of the Cappadocian canon of the sixteenth century with notation of the particular sources for Melanchthon s knowledge and the references to these works in modern scholarly sources While often accused by his critics past and present of being arbitrary in his selection of patristic authorities too free with his quotations and too anxious for theological harmony this work shows Melanchthon at work to reveal the consistent manner and Evangelical Lutheran method by which he used patristic material to proclaim Christ and his benefits throughout his multifaceted career

This book is the first complete and thoroughly commented English translation of Johannes Reuchlin's *Augenspiegel* 1511 The translation sheds light on the author's motive in appealing to the authorities for the preservation of Jewish books at a stage of great cultural change in Early Modern Europe It also addresses the question of how the church and state dealt intellectually with Judaism at a time when it was considered a threat to the existence of Christianity The translation of one of the most politically controversial sixteenth century pamphlets provides a view of the treatment of a minority's culture with perhaps lessons for today's world

were contested and what effect such understanding had on contemporary views of Jews and their intellectual heritage They demonstrate how the involvement of Christians in the production and dissemination of Jewish books played a role in the shaping of the intellectual life of Jews and Christians Contributors are Michela Andreatta Andrew Berns Theodor Dunkelgr n Federica Francesconi Anthony Grafton Alessandro Guetta William Horbury Yosef Kaplan Scott Mandelbrote Piet van Boxel Joanna Weinberg Benjamin Williams

Music Printing in Renaissance Venice Jane A. Bernstein, 1998-10-29 Venetian music print culture of the mid sixteenth century is presented here through a study of the Scotto press one of the foremost dynastic music publishers of the Renaissance For over a century the house of Scotto played a pivotal role in the international book trade publishing in a variety of fields including philosophy medicine religion and music This book examines the mercantile activities of the firm through both a historical study which illuminates the wide world of the Venetian music printing industry and a catalog which details the music editions brought out by the firm during its most productive period A valuable reference work this book not only enhances our understanding of the socioeconomic and cultural history of Renaissance Venice it also helps to preserve our knowledge of a vast musical repertory

*Herodotea* N. G. Wilson, Nigel Guy Wilson, 2015 Although it is often thought that Herodotus is a simple author and that his Histories do not contain many passages requiring textual criticism closer investigation reveals this view to be inaccurate Written to accompany and augment the new Oxford Classical Texts edition of the Histories which has been substantially revised by Nigel Wilson from the original edition by Danish scholar C Hude in 1906 this volume attempts to take account of discussion of numerous passages where there is reason to question whether the text as transmitted in ancient or medieval manuscripts is exactly what the author intended A wide range of conjectures is represented and work by scholars whose contributions have been neglected or insufficiently appreciated in particular J V Pingel H Richards and J E Powell is taken into account

*Donati Graeci* Federica Ciccolella, 2008 The starting point generally acknowledged for the revival of Greek studies in the West is 1397 when the Byzantine Manuel Chrysoloras began to teach Greek in Florence With his Erotemata Chrysoloras gave Westerners a tool to learn Greek the search for the ideal Greek textbook however continued even after the publication of the best Byzantine humanist grammars The four Greek Donati edited in this book Latinate Greek grammars based on the Latin schoolbook entitled Ianua or Donatus belong to the many pedagogical experiments documented in manuscripts They attest to a tradition of Greek studies that probably originated in Venice and or Crete a tradition certainly inferior to the Florentine scholarship in quality and circulation but still important in the cultural history of the Renaissance

**Moria de Erasmo Roterodamo** Jorge Ledo, Harm den Boer, 2014-10-23 The existence of a early Spanish translation of Erasmus s Encomium Moriae has been matter of speculation and unsuccessful

research for over a century This volume offers for the first time the edition of a seventeenth century manuscript discovered at Ets Haim Livraria Montezinos Amsterdam by its editors They demonstrate that it is not only the first known early modern Spanish translation of Erasmus's chief d'uvre but a copy of a much earlier version composed in mid sixteenth century This scholarly edition has been arranged for an easy textual collation with the canonical edition ASD IV 3 and translation CWE 27 of Erasmus's Praise of Folly and includes an extensive apparatus of footnotes devoted both to this version and to Erasmus's Moriae Encomium itself

**Literature, Belief and Knowledge in Early Modern England** Subha Mukherji, Tim Stuart-Buttle, 2018-05-17 The primary aim of Knowing Faith is to uncover the intervention of literary texts and approaches in a wider conversation about religious knowledge why we need it how to get there where to stop and how to recognise it once it has been attained Its relative freedom from specialised disciplinary investments allows a literary lens to bring into focus the relatively elusive strands of thinking about belief knowledge and salvation probing the particulars of affect implicit in the generalities of doctrine The essays in this volume collectively probe the dynamic between literary form religious faith and the process psychology and ethics of knowing in early modern England Addressing both the poetics of theological texts and literary treatments of theological matter they stretch from the Reformation to the early Enlightenment and cover a variety of themes ranging across religious hermeneutics rhetoric and controversy the role of the senses and the entanglement of justice ethics and practical theology The book should appeal to scholars of early modern literature and culture theologians and historians of religion and general readers with a broad interest in Renaissance cultures of knowing

**Print Culture and Music in Sixteenth-Century Venice** Jane A. Bernstein, 2001-07-19 This volume discusses the commerce of music and its connection to the printing and publishing industry in mid sixteenth century Venice Music printers occupied a unique niche in the Renaissance printing world because their product appealed to those with sophisticated taste and was not readable by the entire literate public Bridging the gap between music and other disciplines Bernstein demonstrates here that the role of a music printer can be discussed as part of the larger cultural and economic question of the success of a commercial enterprise
