Spirit of Conscious Capitalism Michel Dion, Moses Pava, 2022-10-20 This book provides a constructive criticism of the emerging practice of conscious capitalism from the perspective of world religions and spiritualities Conscious capitalism to many of its adherents represents an evolutionary step forward beyond the dominant neo liberal paradigm where it often appears that just about everything is for sale Is conscious capitalism consistent with the values inherent in religious and spiritual world views and does it provide a better fit for bringing out the best that business has to offer This book answers these questions and many more An appealing read for researchers in business ethics as well as any reader critical of the excrescences of capitalism Mormonism: A Guide for the Perplexed Robert L.
