SECTION 1: INVESTIGATING THE DESIGN CONTEXT											
0-2		3-4		5-6		7-8				Mark	
						One dimension shown when selecting and evaluating relevant research that will promote originality in designing					
Limited understanding or analysis of design context		Basic understanding and analysis of the design context		Good understanding and analysis of the design context		Excellent understanding and analysis of the design context					
Minimal analysis of other products or systems undertaken		Some analysis of relevant products or systems undertaken		Good analysis of relevant products or systems undertaken		Detailed analysis of relevant existing products or systems undertaken relevant to design intentions					
Provided little evidence of research and analysis of context		Made a superficial analysis of most of the research material and the context		Good analysis of relevant research and context		Comprehensive analysis of relevant and focused research undertaken					
Design criteria is very general and lacking in any detail		Design criteria reflects most of the analysis undertaken		Design criteria which reflects the analysis undertaken		Clear and specific design criteria identified, reflecting the analysis undertaken					
Limited understanding of the target market/user evident		Some consideration has been taken of the likely consumer/user		Target market for product has been identified		Target market identified and the intended consumer/user profiled					
SECTION 2: DEVELOPMENT OF DESIGN PROPOSAL (including modelling)											
0-5		6-12		13-18		19-25		26-32		Mark	
Ideas are lacking in imagination with minimal development or further research		Ideas show some variation in approach or insight		Design ideas show some degree of creativity and further development		Imaginative ideas demonstrating a degree of creativity, which are further developed to take account of ongoing research		Imagination and innovative ideas have been developed, demonstrating creativity, flair and originality, further developments made to take account of ongoing research			
Little evidence of a logical approach being adopted, with no indication of planning		A limited design strategy, with minimal planning, is evident		An appropriate design strategy, with some evidence of planning, adopted for some aspects		An appropriate design strategy, with evidence of planning, adopted for most aspects		A coherent and appropriate design strategy, with clear evidence of a planned approach, adopted throughout			
Development work shows little account of social, moral, environmental and sustainability issues		Some consideration taken of social, moral, environmental and sustainability issues in development of design solutions		Developments of design solutions are influenced by some of the factors relating to social, moral, environmental and sustainability issues		Development of design proposals take into account the main factors relating to a variety of social, moral, environmental and sustainability issues		The implications of a wide range of issues including social, moral, environmental and sustainability are taken into consideration and inform the development of the design proposals			
Basic development work undertaken using a limited range of techniques		Development work is lacking in detail but makes reference to a number of techniques and modelling (including CAD where appropriate)		Adequate development work achieved through working with a range of techniques and modelling (including CAD where appropriate)		Good development work achieved through working with a variety of techniques and modelling (including CAD where appropriate)		Excellent development work through experimentation with a wide variety of techniques and modelling (including CAD where appropriate) in order to produce a final design solution			
Materials/ingredients and components selected with little regard to their working properties		Materials/ingredients and components selected with limited regard to their working properties		Materials/ingredients and components selected with some regard to their working properties		Appropriate materials/ingredients and components selected with regard to their working properties		Appropriate materials/ingredients and components selected with full regard to their working properties			
Product is a simple product/manufacturing specification which is general		Limited product/manufacturing specification which reflects most obvious features of analysis		Product/manufacturing specification reflects most aspects of the analysis		Product/manufacturing specification is a complex and reflects key aspects of the analysis undertaken		Fully detailed and justified product/manufacturing specification taking full account of the analysis undertaken			
SECTION 3: MAKING											
0-5		6-15		16-28		29-35		36-42		Mark	
Final outcome is incomplete or represents an undeveloped 'trial and making' / modelling / finishing skills		Final outcome is largely complete and represents a basic level of making / modelling / finishing skills		Final outcome shows good level of making / modelling / finishing skills		Final outcome shows very good level of making / modelling / finishing skills		Final outcome(s) shows a high level of making / modelling / finishing skills and accuracy			
Used materials, components and equipment safely under close supervision		Used materials, components and equipment correctly and safely (including CAD if appropriate)		Used appropriate materials, components, equipment and processes correctly and safely (including CAD)		Selected and used appropriate tools, materials and/or technologies including, where appropriate, CAD correctly and safely		Selected and used appropriate tools, materials and/or technologies including, where appropriate, CAD correctly, skilfully and safely			
Worked with some assistance to produce outcome of limited demand		Some aspects of outcome are demanding		Parts of outcome show high levels of demand		Outcome demonstrates a high level of demand		Worked independently to produce a rigorous and demanding outcome			
There is limited evidence of any quality control and levels of accuracy are minimal		Some evidence of limited quality control applied throughout the process		Applied quality control checks broadly but superficially		Quality control checks applied in the manufacture of the product		Quality controls are evident throughout the project and it is clear how accuracy has been achieved			
The outcome has significant faults which limit its suitability for the target market		The outcome has some weaknesses which limit its suitability for the target market		The outcome requires further development in order to be suitable for the target market		The outcome is suitable for the target market and could be commercially viable with further development		The outcome has the potential to be commercially viable and is suitable for the target market			
SECTION 4: TESTING AND EVALUATION											
0-2		3-5		6-8		9-12				Mark	
Minimal testing and evaluation throughout the designing and making process		Evidence of some testing and evaluation leading to the production of the final outcome		Appropriate testing and evaluation evident throughout the designing and making process		Detailed testing and evaluation as appropriate throughout the designing and making process taking account of client/user or third party opinion					
Limited or no testing of final outcome against the design criteria or the product/manufacturing specification		Some evidence of testing against the design criteria and/or the product/manufacturing specification		Most aspects of the final outcome have been tested against the design criteria		All aspects of the final outcome have been tested against the design criteria and/or the product/manufacturing specification					
Limited mention of some improvements or modifications that could be made to the product		Some improvements or modifications to product suggested		Evaluate and justify the need for improvements or modifications to the product		Evaluate and justify the need for modifications to the product and how the outcome given is to those that outcome might need to be modified for commercial production
