Recoding America Jennifer Pahlka, 2023-06-13 Named one of NPR's Best Books of 2023 Named one of Ezra Klein's Books That Explain Where We Are in 2023 The New York Times Learn more about Jennifer Pahlka's work at recodingamerica.us The book I wish every policymaker would read Ezra Klein The New York Times A bold call to reexamine how our government operates and sometimes fails to from President Obama's former deputy chief technology officer and the founder of Code for America Just when we most need our government to work to decarbonize our infrastructure and economy to help the vulnerable through a pandemic to defend ourselves against global threats it is faltering Government at all levels has limped into the digital age offering online services that can feel even more cumbersome than the paperwork that preceded them and widening the gap between the policy outcomes we intend and what we get But it's not more money or more tech we need Government is hamstrung by a rigid industrial era culture in which elites dictate policy from on high disconnected from and too often disdainful of the details of implementation Lofty goals morph unrecognizably as they cascade through a complex hierarchy But there is an approach taking hold that keeps pace with today's world and reclaims government for the people it is supposed to serve Jennifer Pahlka shows why we must stop trying to move the government we have today onto new technology and instead consider what it would mean to truly recode American government Fool's Gold Susan

Crabtree, Jedd McFatter, 2025-03-11 An investigation that shows how the most ambitious figures in the Democratic Party want to transform the rest of America into the progressive dystopia that is California Take a close look at today's Democratic Party power brokers and you'll quickly realize most of them share one thing in common California Residents are fleeing the Golden State in droves Catastrophic wildfires fueled by years of corruption and collusion between elected officials and colossal utility companies continue to devastate communities The state's homelessness crisis is the worst in the country Drug related deaths are skyrocketing And violent crime and smash and grab retail theft is now commonplace For too many across the state pursuing the Californian Dream is now a fool's errand But what people don't know is what's driving these failures why California's leaders have allowed them to spiral and how this contagion could spread to every other city and town in the United States if it isn't exposed for what it is failed far left social experiments From the investigative research team behind Peter Schweizer's runaway bestsellers comes Fool's Gold a hard hitting work of journalism that tells the untold story of the dark side of the Democratic Party's Californian elites and the toll they've taken on the entire country One of Schweizer's top investigators Jedd McFatter has teamed up with award winning investigative journalist Susan Crabtree to expose the most powerful names in politics Gavin Newsom Kamala Harris Nancy Pelosi and Adam Schiff among others Their investigation exposes The most powerful and ambitious politicians and family dynasties and their questionable association with convicted criminals and unsavory business partners World class con artists and their schemes to defraud plunder and literally poison the people and institutions of America including the illegal alien drug dealers getting rich and avoiding prison and

deportation while killing Americans with fentanyl and other illicit drugs Myriad schemes in which officials line their own pockets and sell out to the Chinese government along with other foreign interests You ll see how California s elites retain political power at the national and international scale through secrecy and deception How did the Golden State become this tarnished And more importantly why is California s corrosion continuing This explosive book warns that Gavin Newsom is actually right when he often declares As goes California so goes the nation America s future is inextricably tied to California because of its sheer size and the enormous influence of its political figures who remain dead set on controlling the White House for decades to come and turning the rest of America into California It s a story the mainstream media would prefer to keep hidden
