Barack Obama This Improbable Quest:

Barack Obama John K. Wilson, 2016-01-08 Barack Obama is quickly becoming America's most popular politician and his run for the presidency has brought huge crowds at home and an unprecedented wave of international attention as well. Much more than a biography, this book is a political tour of Obama's legislative experience as well as his ideas about race, religion, and politics. Political writer John K. Wilson, author of four previous books including a study of Newt Gingrich, explores the reaction Obama has received from the left, the right, and the media. As the first presidential candidate from Generation X, Obama has generated an exciting movement of young people to support his campaign as he defines a new kind of broadly popular progressive politics. As improbable as such a quest may be, this fresh new candidate may be just the right one to bridge not only generations but ideologies that often divide. Amid all the hype surrounding Obama, this book provides the first in-depth look at what he believes, what he represents, and how he might transform American politics. **The Obama**

Revolution Alan Shaffer, 2012-02-01 How did the Obama campaign's mostly under-30 field organizers, using cell phones and the Internet, energize a nation to vote for change? How did an unlikely candidate engage every American in the democratic process and ignite a movement that ended eras of political cynicism and apathy? *The Obama Revolution* is an in-the-trenches look at how President Barack Obama mobilized a generation to reclaim America. Author Alan Kennedy Shaffer draws a vivid picture of grassroots organizing, from the grueling all-nighters to the endless canvassing. His rhetorical analysis also explores what exactly Obama did to clinch the Democratic nomination and how he won the election. Painstakingly documented and insightful, *The Obama Revolution* is a must-read for anyone Democrat, Republican, or Independent who wants to understand the phenomenon of Barack Obama and how his campaign toppled the status quo. *The Faith of Barack Obama* Stephen Mansfield, 2023-03-21 You must read this perceptive and well-written book. Then you will know why Barack Obama has such a passion for justice and equity. Archbishop Desmond Tutu: Barack Obama. The speculation about his religious life abounds. Is he a closet Muslim? Is he really a Christian? Did his faith have anything to do with his governing? As the picture of President Obama's faith has emerged, questions about the foundation of his beliefs continue to ignite debate. In this updated edition of his international bestseller *The Faith of Barack Obama*, New York Times bestselling author Stephen Mansfield explores the claims of Obama's detractors and supporters alike while examining how the challenges of the presidency shaped Obama's religious beliefs. This evenhanded account of the former president's spiritual life provides a closer look at the people and events that have influenced his belief system. Mansfield analyzes Obama's friendship with the controversial Jeremiah Wright and also profiles the Christian leaders who offered guidance and support during the president's challenging term. Mansfield takes you inside the religious life of Barack Obama, introducing you to the type of preaching the president heard at Camp David and even revealing details such as the content of the daily devotional readings the former president received on his cell phone. This fascinating study explains the faith elements within Obama's politics while acknowledging the questions

about his beliefs that remain unanswered Mansfield presents an analysis of Obama's distinctly postmodern journey that will generate valuable discussion across the religious spectrum Publishers Weekly *Critical Essays on Barack Obama* Melvin B. Rahming, 2011-12-15 This collection of critical essays explores the life and writings of President Barack Obama The individual essays written by a diverse body of scholars examine specific facets of Obama's career from personal communal national and international reactions to his presidential election to his controversial contributions to the global conversation about race his impact on popular culture and race relations his literary political and philosophical visions his attitude toward the American constitution his enactment of new legislation to the manner in which he attempts to influence American public policy and to the implications his presidency holds for Europe Africa and the Caribbean Ranging far beyond the presentation of personal opinions about the Obama Administration these essays offer scholarly perspectives on Obama's two books and on his multidimensional efforts to remove the obstacles to equality of opportunity in the United States They also explore Obama's potential for re-shaping the American social and cultural terrain and by extension for re-vitalizing the American Dream This book should be of interest to scholars of political science literature history philosophy religion and psycho-culture as well as to the general reading public *Barack Obama* Britannica Educational Publishing, 2012-12-01 Sweeping into the office of U.S. president with his mesmerizing oratory of hope and change Barack Obama forever transformed American politics As the first African American to hold the title his election represented a historic milestone both socially and politically The 44th president's remarkable journey from Hawaii and Indonesia to Chicago and the White House is chronicled and the major issues including the financial crisis healthcare and foreign policy that his administration has faced are examined **The Obama Phenomenon** Charles P. Henry, Robert Allen, Robert Chrisman, 2011-09-28 Barack Obama's campaign and electoral victory demonstrated the dynamic nature of American democracy This collection shows the impact of the Obama phenomenon on the future of race relations within the United States through readings on Barack Obama's campaign as well as the idealism and pragmatism of the Obama administration **The Election of Barack Obama** Jason Porterfield, 2010-01-15 Provides information on the election of Barack Obama and the different viewpoints of how race does or doesn't play into politics **Barack Obama and the Future of American Politics** Paul Street, 2015-12-22 Many Americans believe Barack Obama represents a hopeful future for America But does he also reflect the American politics of the past This book offers the broadest and best informed understanding on the meaning of the Obama phenomenon to date Paul Street was on the ground throughout the Iowa campaign and his stories of the rising Obama phenomenon are poignant Yet the author's background in American political history allows him to explore the deeper meanings of Obama's remarkable political career He looks at Obama in relation to contemporary issues of class race war and empire He considers Obama in the context of our nation's political history with comparisons to FDR JFK Bill Clinton and other leaders Street finds that the Obama persona crafted by campaign consultants and filtered through dominant media trends masks the change candidate's

adherence to long prevailing power structures and party doctrines He shows how American political culture has produced misperceptions by the electorate of Obama's positions and values Obama is no magical exception to the narrow spectrum electoral system and ideological culture that have done so much to define and limit the American political tradition Yet the author suggests key ways in which Obama potentially advances democratic transformation Street makes recommendations on how citizens can productively respond to and act upon Obama's influence and the broader historical and social forces that have produced his celebrity and relevance He also lays out a real agenda for change for the new presidential administration one that addresses the recent failures of democratic politics

La Fe de Barack Obama Stephen Mansfield, Barack Obama Joann F. Price, 2008-11-21 By any measure the 2008 presidential race has been historic The race has created an enthusiasm and a high degree of interest in politics few have ever seen before At the center of the race is Barack Obama the first African American to become the presumptive Democratic nominee Many Americans agree with his politics and many don't but most agree he is an incredible force in today's highly charged political world and has come along at one of the most crucial difficult times in our nation's history For a sense of what has transpired in this campaign and how it is different from others in America's history this book looks at one candidate from the perspective of quotations made by and about Barack Obama Thematically arranged chapter highlight topics including Obama's heritage his family state and national politics his run for the presidency the issues of the day community activism and service and thoughts on race and faith Each chapter contains an introduction and many of the quotations are supported with background information to give students and general readers a better understanding of the current events and political issues at play Ideal for student assignments as well as for reading cover to cover this volume offers the most representative revealing and often controversial quotes by and about a man who has created a movement in American politics

Barack Obama's Post-American Foreign Policy Robert Singh, 2012-06-07 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com After one of the most controversial and divisive periods in the history of American foreign policy under President George W Bush the Obama administration was expected to make changes for the better in US relations with the wider world Now international problems confronting Obama appear more intractable and there seems to be a marked continuity in policies between Obama and his predecessor Robert Singh argues that Obama's approach of strategic engagement was appropriate for a new era of constrained internationalism but it has yielded modest results Obama's search for the pragmatic middle has cost him political support at home and abroad whilst failing to make decisive gains Singh suggests by calibrating his foreign policies to the emergence of a post American world the president has yet to preside over a renaissance of US global leadership Ironically Obama's policies have instead hastened the arrival of a post American world

National Security in the Obama Administration Stanley A. Renshon, 2009-09-10 The Bush Doctrine is dead At least that's what critics hope But while new U S national security challenges emerge many post 9 11 threats still persist and the

policies of George W Bush offer one set of strategic answers for how President Obama can confront those dangers Neither a polemic nor a whitewash this book provides a careful analysis of the Bush Doctrine its development application and rationale and assesses its legacy How will Obama respond to the many foreign policy challenges that await him Through an examination of psychology as much as policy Renshon gives us the first comparative analysis of the Bush Doctrine and the developing Obama Doctrine The book analyzes the range of national security issues Obama will face and the political divisions that permeate U S national security debates It is essential reading for anyone looking to understand how presidents assess security risks generally and how Obama specifically is likely to adapt the Bush Doctrine to his own worldview Race 2008 Myra Mendible,2010-05 Race 2008 Critical Reflections on an Historic Campaign brings together a diverse group of scholars and activists to examine the gendered politics images rhetorical practices and racial ethnic conflicts that served as a backdrop to this momentous election It features perspectives marginalized or ignored by mainstream media and political pundits thus providing alternative critical insights on the social dynamics fueling campaign rhetoric grassroots activism and intergroup conflicts in 2008 and beyond **President Barack Obama** John K. Wilson,2019-11-11 Barack Obama s improbable quest has become a fact of American life and a benchmark in American history Striving now toward a more perfect union Obama and the nation confront obstacles unforeseen at the outset of the 2008 electoral campaign John K Wilson tracks the sweep of this progress from the beginning of Obama s political career through his move into the White House With his critical journalistic eye and his sympathetic native son perspective Wilson shows us a side of Obama we haven t seen as well as a view of the media we need to understand even more now as the Obama administration begins to govern The paperback edition of this popular book includes a new introduction updates throughout and two new chapters on the electoral victory and the transition from campaigning into governing New photos and new insights include a focus on the continued importance of race in American politics **Harvard Law Review: Volume 130, Number 3 - January 2017** Harvard Law Review,2017-01-11 *The Riddle of Barack Obama* Avner Falk,2010-08-03 An internationally noted clinical psychologist offers readers the first psychological biography of Barack Obama *The Riddle of Barack Obama* A Psychobiography is the first complete psychological biography of President Barack Obama written by a professional clinical psychologist Covering Obama s life to date as well as the lives of his parents grandparents and other ancestors this fascinating volume illuminates the personal professional political emotional intellectual and creative aspects of Obama s personality as well as the motives conscious and unconscious for his beliefs and actions Dr Avner Falk draws on hundreds of biographies newspaper and magazine articles interviews investigative reports and more using psychoanalytic models developed by Sigmund Freud Donald Winnicott Peter Blos Heinz Kohut and Schiffer to probe Obama s psychological development Examining every facet of the president s biography he delves into his earliest feelings of abandonment and helplessness his inner conflicts his protective relationship with his mother his ambivalent identification with his father and

his quest for identity Perhaps most intriguingly Dr Falk explores the psychological origins of Obama's fierce ambitions and the ingredients of his charisma **Barack Obama, The Aloha Zen President** Michael Haas, 2011-01-19 With a foreword written by former presidential candidate Michael Dukakis this book portrays President Barack Obama as a true child of Hawai'i and explains why he believes that America can achieve even more greatness by learning from the multicultural customs of the 50th state Obama's aspiration to transform the United States using Hawai'i as his model has been a conspicuous theme in his books and speeches over the years In them he extols Hawai'i's multicultural ethos describing how a normative problem solving mindset predicated on mutual respect and harmonious interchange is inculcated in the culture politics and society of the Islands Indeed this Aloha Spirit is imbued in Barack Obama is part of what made him irresistibly charismatic as a candidate and explains why voters in 2010 were baffled at his demeanor after he became the 44th President of the United States This unique book examines Obama's decisions as an adult and as president and exposes how they are directly linked to the culture of Hawai'i and Obama's multicultural life as a child The author and contributors also describe the ways in which native Hawaiians were dispossessed of their sovereignty and their land how they steadfastly sought justice and how their quest served as a model for Obama's mobilization of support for his candidacy *Obama and the Gays* Tracy Baim, 2010 Presents a clear lively in depth review of Barack Obama's policies on gay issues from the early days of his political career through his meteoric rise to prominence all in the context of the political landscape of the times P 4 of cover

Beyond the Boundaries Georgia A. Persons, 2017-09-29 In the past African American aspirations for political office were assumed to be limited to areas with sizeable black population bases By and large black candidates have rarely been successful in statewide or national elections This has been attributed to several factors limited resources available to African American candidates or identification with a black liberationist ideological thrust Other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates For these reasons the possibility of black candidates winning elections to national office was presumably just a dream Conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend But objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions The contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of African American electoral politics This volume is anchored by a symposium that focuses on new possibilities in African American politics Both the electoral contests of 2006 and the Barack Obama presidential campaign represent an emergent dynamic in American electoral politics Analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely The debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in American politics

and the subsequent changing political fortunes of African American candidates The Most Dangerous Man in America
John K. Wilson, 2025-10-16 John K Wilson the author of President Trump Unveiled tackles the ideologies of America's most notorious conservative radio talk show icon in The Most Dangerous Man in America Rush Limbaugh's Assault on Reason Rush Limbaugh is the most prominent figure in the conservative movement with millions of listeners every week on more than six hundred stations a larger media platform than almost any other individual in the nation And this is why he is so dangerous Despite refusing to uphold even the most basic standards of journalism Rush has been given an extensive wide reaching platform with which to spew his venom And spew it he does In this book author John K Wilson uses the most damning evidence of all Rush's own words to deliver the ultimate indictment of Limbaugh's bankrupt ideology and how it embodies the decline of the conservative movement Wilson catalogs the world according to Rush from the political conspiracies to his disdain for scientific evidence and apparent love of racist sexist and homophobic stereotypes and shows how the radio personality poisons any rational political rhetoric with an endless stream of slurs lies and intimidation Most revealingly the author demonstrates how Limbaugh's blustering baseless proclamations and love for savage personal attacks have had a chilling effect on both parties as he viciously targets not only liberals but also any Republican who dares question one of his conclusions Meanwhile Rush's viselike grip on the political arena has created a media monster so powerful that even liberal commentators are forced to engage with him and his polarizing discourse The Most Dangerous Man in America reveals Rush Limbaugh to be just that No matter what you thought about the man before you will never feel the same way about him again

Uncover the mysteries within is enigmatic creation, **Barack Obama This Improbable Quest** . This downloadable ebook, shrouded in suspense, is available in a PDF format (Download in PDF: *).
