chose him as President of the United States of America at a crucial moment of the financial crisis despite all the disadvantages that weighed on him Barack Obama has truly shaken up the world With this achievement he has definitely proved that anyone not just rich boys from the upper classes can become president Besides the book The Political Phenomenon is the most nuanced account of the most exciting presidential campaign in American history including not only the highlights but also how the campaign became truly dramatic with all the problems conflicts and achievements In general the rest of the world doesn't pay too much attention to the primaries until the two main candidates have emerged But this time it was different From Paris to Kinshasa from Copenhagen to Melbourne people stayed up late already in the beginning of 2008 waiting for the results of the American presidential primary season And finally this book captures the essence of one of the most extraordinary leaders of our time and the process by which he became without any doubt a political phenomenon
