The Family Silver Susan Krieger, 1996-10-21 A magnificent read a profoundly personal narrative The Family Silver is on the cutting edge of feminist scholarship Verta Taylor coeditor of Feminist Frontiers Just as Krieger's The Mirror Dance was the first to describe the lesbian community The Family Silver is the first book to blend the personal familial relational professional and political roles of lesbians in today's society I loved reading it Esther Rothblum editor of Journal of Lesbian Studies Handbook of Adult Development Jack Demick, Carrie Andreoletti, 2012-12-06 This volume is an outgrowth of contemporary research on development over the adult lifespan which by now has burgeoned and developed both nationally and internationally However for us the impetus to be involved in this area was spawned and nurtured by our initial association with the Society for Research in Adult Development SRAD with its origins some 15 years ago by Michael Commons and his associates in Cambridge Massachusetts Through the good will and support of this society we also became and are still heavily involved with the Journal of Adult Development and the Kluwer Plenum Monograph Series on Adult Development and Aging of which this volume is a companion Many of the contributions in the volume are from SRAD members who consistently adhere to a focus on positive adult development Their chapters have been complemented by pieces from other researchers who have adopted more mainstream approaches to adult development and aging Regardless of the particular approach and or focus of the chapter all the work reported herein supports the relatively recent idea that development is not restricted to children and adolescents but continues throughout the adult lifespan in ways that we never envisioned some 20 years ago Thus the volume represents state of the art theory research and practice on adult development which has the potential to occupy us all for some time to come Black Religion in the Madhouse Judith

Weisenfeld, 2025-04-29 Black Religion in the Madhouse traces the encounter between African Americans and American psychiatry in the decades after the end of slavery and into the twentieth century showing how white psychiatrists pathologized African American religion and exploring the implications of these theories and practices for Black patients

Women's Untold Stories Mary Romero, Abigail J. Stewart, 1999 First published in 1999 Routledge is an imprint of Taylor Francis an informa company **Kingdom to Commune** Patricia Appelbaum, 2009-03-01 American religious pacifism is

usually explained in terms of its practitioners ethical and philosophical commitments Patricia Appelbaum argues that Protestant pacifism which constituted the religious center of the large scale peace movement in the United States after World War I is best understood as a culture that developed dynamically in the broader context of American religious historical and social currents Exploring piety practice and material religion Appelbaum describes a surprisingly complex culture of Protestant pacifism expressed through social networks iconography vernacular theology individual spiritual practice storytelling identity rituals and cooperative living Between World War I and the Vietnam War she contends a paradigm shift took place in the Protestant pacifist movement Pacifism moved from a mainstream position to a sectarian and marginal one from an embrace of modernity to skepticism about it and from a Christian center to a purely pacifist one with an informal flexible theology The book begins and ends with biographical profiles of two very different pacifists Harold Gray and Marjorie Swann Their stories distill the changing religious culture of American pacifism revealed in Kingdom to Commune

Critical Histories of Accounting Richard K. Fleischman,Warwick Funnell,Stephen P. Walker,2013 The critical tradition in accounting historiography has come to occupy a prominent place in the discipline s academic scholarship Some critical literature has confronted the responsibility of accounting and accountants in precipitating contemporary crises such as the audit failures that spawned Sarbanes Oxley and the world wide recession Certain contemporary issues have long histories such as the difficulties encountered by women to break the glass ceiling in public accounting and the suffering of indigenous peoples under the imperialistic yoke Other episodes in accounting s long history are seemingly more divorced from the present but in reality they all have contemporary significance Slavery in the New World for example although abolished more than a century ago is still rampant in parts of the world albeit less formally Critical accounting historians feel it a duty to

harken to the suppressed voices of the past those groups of people who had no access to an accounting record women persons of color indigenous populations alienated proletarians victims of governmental incompetence and graft and many voiceless others Critical Histories of Accounting Sinister Inscriptions in the Modern Era draws on the foremost work in this developing literature both that authored by the co editors of this volume and that written by others Editors Richard K Fleischman Warwick N Funnell and Steve Walker have written extensively about the dark side of accounting gauging the complicity of those performing accounting functions in episodes in human history that are at worst evil and at best reprehensible The editors have also hand selected a series of historical and contemporary episodes that have been critically investigated by the wider accounting history community preceded by a thorough introduction
