Barack Obama Cornerstones Of Freedom Third:

Freedom Is the Foundation Aaron Withe, 2023-06-22 The Freedom Foundation is figuratively and literally writing the book on how to defeat government unions in America Mike Huckabee Former Governor of Arkansas Aaron Withe and his team at the Freedom Foundation are doing work that I wish could have been done in Britain decades ago If America is to continue to be the most free and prosperous country in the world then the Freedom Foundation must win its fight against government unions They have already been able to help hundreds of thousands of public employees to leave their unions forcing union bosses into early retirement Nigel Farage Critical race theory Defunding the police Closing down schools and keeping our children's faces forever masked What do these woke policies have in common They are pushed and funded by government unions which are the primary bankroller of the leftist causes that are growing Big Government and destroying American public education The Freedom Foundation a self-described battle tank is dedicated to eliminating the pernicious influence of these unions The Freedom Foundation's CEO Aaron Withe is an English born former college basketball player who is now dunking for American liberty In Freedom Is the Foundation Withe gives an insider account of his organization's always aggressive sometimes controversial and undeniably successful campaign to recapture America from government unions Taking advantage of a recent landmark US Supreme Court decision the Freedom Foundation has helped liberate hundreds of thousands of government workers from their unions saving them an average of 1 100 in yearly dues and depriving the unions of hundreds of millions of dollars and rising that would otherwise have been spent promoting radical causes and candidates Blending frontline reporting with inspiring stories of courageous men and women who are standing up for their rights Freedom Is the Foundation is both a roadmap to recovering freedom in America and a stirring account of how dedicated patriots are taking on and intending to defeat the most powerful lobby for wokeness and Big Government bullying in America

The Politics of Consolation Christina Simko, 2015 What meaning can be found in calamity and suffering This question is in some sense perennial reverberating through the canons of theology philosophy and literature Today The Politics of Consolation reveals it is also a significant part of American political leadership Faced with uncertainty shock or despair Americans frequently look to political leaders for symbolic and existential guidance for narratives that bring meaning to the confrontation with suffering loss and finitude Politicians in turn increasingly recognize consolation as a cultural expectation and they often work hard to fulfill it The events of September 11 2001 raised these questions of meaning powerfully How were Americans to make sense of the violence that unfolded on that sunny Tuesday morning This book examines how political leaders drew upon a long tradition of consolation discourse in their effort to interpret September 11 arguing that the day's events were mediated through memories of past suffering in decisive ways It then traces how the struggle to define the meaning of September 11 has continued in foreign policy discourse commemorative ceremonies and the contentious redevelopment of the World Trade Center site in lower Manhattan

exceptionalism matters in domestic politics chiefly as a political narrative around which support for and opposition to certain policies values and vision of American society coalesce But in world affairs it is not the story but the empirical reality of American exceptionalism that matters Although the long era of America s global economic dominance has entered what might be called a period of diminished expectations the United States remains exceptional the indispensable nation in world affairs and is likely to remain so for many years to come *America's Security and Taiwan's Freedom* Li

that the US expect that the European security challenges primarily should be handled by NATO s European allies in a new transatlantic burden sharing model and that the US role should principally be Article V focused This book investigates to what extent these claims are valid and what consequences they may have for European and international security The Personal Is Political Christine Salkin Davis,Jonathan L. Crane,2020-07-27 In the wake of Donald J Trump s unprecedented victory and his administration s multi pronged attacks on an array of vulnerable populations a diverse collection of scholars was asked to document the ways in which marginalized peoples have experienced the first years of Trump mayhem The essays in this volume ask us to think through tough narratives of exclusion exile and pain The challenge in this book is to represent the unrepresentable to document in chilling detail how Trump his allies in government and his unshakeable base have weaponized the culture war and threatened the ideals of the Republic This book invites us to experience the scarifying perspective of the marginalized Other to remember to honor all our most human stories that woven together make up the collective us the collective U S The editors also hope this collection suggests a way forward a way to defeat American nativism and a way to end the war on those of us who are on this sad day our nation s public enemies
